# MESSAGE FROM THE AUSTRALIAN SPORTS COMMISSION

## AUSTRALIA'S WINNING EDGE SPORTS

**The past year has seen considerable success and progress for Australian sport on the world stage, for the Australian Sports Commission (ASC), and our elite sport partners and athletes.**

The Government's 2014–15 investment of nearly \$120 million continues to be refined to ensure funding is aligned to sports with the greatest potential to contribute to Australia's Winning Edge 2012–2022 targets and maximise our chances at success.

Since Winning Edge was launched, the AIS re-allocated \$20 million of high performance funding among sports and boosted direct athlete funding (dAIS) by \$3.6 million or 40 per cent.

The Sports Tally 2015 — the annual report card for Australian sports — revealed promising signs as we gear up for the Rio 2016 Olympic and Paralympic Games, while highlighting some of the challenges presented by our performance at the 2014 Glasgow Commonwealth Games.

In March the Commission launched Play.Sport.Australia. — our plan to help NSOs build participation in sport and make sure all Australians enjoy its benefits. Sports have the opportunity to attract more than 4.5 million Australians into their communities. It's important that we work together to ensure that more Australians, particularly young Australians, participate in sport more often and that we have strong organisations that deliver the products and opportunities Australians want.

**Some highlights in 2014–15 included:**

- **Personal excellence** - The most significant athlete wellbeing program in AIS history, incorporating myAISPlaybook - a new high performance athlete learning and development platform.
- **AIS Sports Draft** - Athletes selected in this fast tracked development came together at the AIS to share their journeys as they transition to Olympic or Commonwealth Games sports.
- **AIS Centre for Performance Coaching and Leadership** - More than 45 coaches graduated from the centre, providing development and mentoring for our brightest coaches and administrators.

As our attention starts to focus on Rio and the major events leading up to the Games, I look forward to the ASC teaming up with your organisation to help put our athletes in the best possible position and enhance our chances of success.

**JOHN WYLIE AM**  
Chair  
Australian Sports Commission

# PRESIDENT'S MESSAGE

**Cycling Australia (CA) has had a challenging but productive year in 2015. The sport is booming and there are many opportunities ahead of us. The major challenge is to ensure that the governing body takes its place as the leader of the sport.**

Our new board has been in operation for over twelve months, having been elected in September 2014. You will recall that the board members were hand-picked from a long list of interested and qualified applicants. My task is to ensure that they are stretched, challenged and provide first-rate leadership and strategic direction to CA. They have attacked the task with enthusiasm and it has been a pleasure to chair the discussions. We believe that we can see the way ahead for CA and are enthusiastic about its future.

It is widely recognised that CA experienced significant challenges in recent times, requiring its leadership to take stock and implement a clear and effective plan to put it back on track. It is time to move on from the problems of the past as there is much to be done.

At the core of the changes at CA is a renewed focus on financial management and governance. We have worked extremely hard to ensure that we continue to meet the standards expected of a leading national sporting organisation. This has led to changes of CA's strategic direction and the introduction of a new leadership team.

At a personal level, my focus has been on the development of the new strategic plan and implementing governance reforms, as well as chairing an important membership and insurance working party. This has provided me with first-hand insights into the workings of our organisation as well as a valuable opportunity to discuss aligned strategies with our member states, partners, and the Australian Sports Commission (ASC).

Working in partnership must be the cornerstone for everything we do, and partnering with our colleagues across the states and territories will be imperative to achieving our future success. We value your input – it is critical to our undertakings at every level; and we are committed to ensuring the 2016 year sees greater collaboration of our organisations to ensure the sport reaches its full potential in Australia.

As we approach the Rio 2016 Olympic Games, it is important that we reflect on the outstanding season for our competitive cyclists, with notable achievements across the board with medals at World Championships in para-cycling, track, road and BMX.

While I am reluctant to point out any individual performances in an outstanding year, I was personally delighted to see Anna Meares OAM become the most successful female track cyclist in history with her eleventh world championship gold medal at the 2015 UCI World Track Championships.

We continue to deliver on our medal targets identified in the ASC Australia's Winning Edge high performance strategy. Our High Performance Unit, led by Kevin Tabotta and Paul Brosnan, has performed at a very high level.

The support that we receive from the ASC across a wide range of areas is greatly appreciated.

In September, I was pleased to attend the UCI Congress in Richmond, Virginia, USA. The event brought together some of the most notable leaders in the sport and it was a great opportunity to gain insights and learnings from global experts. It was gratifying to see that Australia is well regarded and well positioned on the international stage. Tracey Gaudry represents us well as Vice President of the UCI and her influence across a wide range of areas has been most valuable for CA. Additionally, we have had two valuable international appointments this year – Anna Meares has been appointed to the UCI Athletes' Commission, and our Director of High Performance Kevin Tabotta, has been appointed to the UCI Track Commission.

As we look to 2016, there are challenges and opportunities that lay ahead. The Rio 2016 Olympic Games will be our most prominent challenge. The board's focus will be on implementing our strategic plan and restoring the financial viability of CA.

We are also pleased to be moving to a centralised office space in Melbourne. It is an opportunity for greater collaboration and efficiencies as a result of centralisation of our resources.

I thank Nick Green and his team for their efforts in a difficult year. Melinda Tarrant's work as acting Chief Executive and Chief Operating Officer is greatly appreciated and we wish her well in her new role.

In closing, I would also like to make special mention of Gerry Ryan OAM, who stepped down during the year after serving as President and as a Director. Gerry is a tremendous supporter of CA. His involvement during difficult times will be acknowledged for many years to come, and I trust you will join me in thanking Gerry for his service.

Regards,

**MALCOLM SPEED AO**  
**President**

# CEO'S MESSAGE

**I am pleased to be writing my first report as CEO of Cycling Australia (CA).**

**Cycling is an amazing sport and I am excited to see an increasing number of passionate racing and recreational cyclists on a regular basis. I love the fact that cycling is accessible to all, extremely social and importantly, keeps people fit.**

Over the past twelve months, I have taken time to listen and learn. This has assisted enormously in understanding the existing gaps as well as helping create a new strategic platform that will provide stability, growth and a solid base for future investment.

## STRATEGIC VISION

As we move into 2016, it is clear that we need to focus on growing our membership base, with a particular focus on servicing our racing members whilst at the same time growing our recreational membership base. We will also focus sharply on women and our youth, which will support our performance, engagement and participation initiatives.

The growth of cycling is a shared responsibility and our strategic vision will aim to unify the important industry and sport partners, and we will continue to collaborate with member states and clubs. We will protect, promote and uphold the values of cycling. In an important and new strategic direction for our organisation, we will lead, as well as partner on, important advocacy matters.

Our athletes, past, present and future, continue to be a focus of our organisation and play an extremely important part in showcasing our sport globally and at home. Their performances delight and inspire the many millions who ride a bike. We have detailed the significant achievements of our athletes in the results section of this annual report.

## STRUCTURAL REFORM

Throughout 2015, an internal structural review saw the introduction of a new leadership team, as well as significant reforms to our financial management, governance, commercial operations and reporting. While changes are set to continue into 2016, these improvements and new appointments will position our organisation for continued growth, and the ability to deliver to our members, partners and supporters.

## INITIATIVES AND ACHIEVEMENTS

**Amongst the reforms throughout the year, it has also been a year of achievements and milestones for CA, and I'm pleased to reference a selected few highlights that I am a particularly proud of:**

- January marked the start of the summer of cycling, which really saw our sport profiled in a positive light. This included the inaugural hosting of the UCI sanctioned Cadel Evans Great Ocean Road race and the announcement of a new two-year broadcasting agreement with both Channel 9 and Fox Sports, which will continue to see our sport publicised on free-to-air and subscriber national television.
- Over the year our social and digital media platforms have seen a significant growth of 45% across many of our channels.
- Our 'She Rides' programs participants doubled against its inaugural year. Pleasingly, She Rides also increased its reach, with availability in more than 50 locations and our first Let's Ride programs commenced in 2015, after an extensive and detailed development process including consumer insights, product offering development, brand, marketing and design.

- We have invested considerable time and expertise in developing and adopting a new national junior and coaching framework to meet the objectives of our participation and performance outcomes.
- We have adopted the new World Anti-Doping Authority (WADA) anti-doping policy and are proud that as a national federation, we continue to drive a strong stance against doping.
- In partnership with the Australian Sports Commission (ASC), member states and industry experts, we led a comprehensive review of the CA membership and insurance offering that will see significant improvements to our growing membership base over time.
- We have continued to forge strong relationships with the Union Cycliste Internationale (UCI), federal government, member states, Mountain Bike Australia (MTBA), and new and existing commercial partners.

## GROWING OUR MEMBERSHIP BASE

Since the 2014 annual report, overall CA membership levels have risen by 3.5%. This is largely attributed to the continued growth of the recreational category, which now makes up over 30% of our member base.

In early 2016, we will enter into a longitudinal research project with the ASC to better understand the needs of the recreational riders. As we look to grow on our membership base, this research will guide our growth strategy on providing benefits to the millions of weekly bike riders, while delivering a better service to our existing members.

## ACKNOWLEDGEMENTS

As we close out another year for CA, I thank those who have been instrumental in supporting and driving the organisation forward. I would like to make particular mention of the ASC, our member states, the dedicated staff at CA, and of course, our loyal sponsors and partners who continue to allow us to do great work.

On a personal note, my sincere thanks to our President, Malcolm Speed AO, for his guidance through my first 12 months in office, as well as leading a hard working and diligent board of directors in implementing a platform for future success.

Finally, I have thoroughly enjoyed meeting many passionate cyclists and volunteers who continue to shape our sport, and I am particularly proud that we will acknowledge their contribution with the establishment of the inaugural CA Hall of Fame.

I wish you all a very happy season of summer riding, and look forward to continuing this journey with you in 2016.

**NICHOLAS GREEN OAM**  
Chief Executive Officer

HIGH PERFORMANCE UNIT

# HIGH PERFORMANCE

**2015 has been a successful year for the High Performance Unit (HPU), both in terms of program athlete progression and national team performances against Australian Winning Edge Bench Mark Event (AWE BME) targets. Subsequent increased financial support has been provided by the Australian Institute of Sport (AIS) to enhance priority disciplines preparation for the 2016 Rio Olympic and Paralympic Games.**

Given the overall financial position, the HPU made some difficult, but necessary decisions. With the support and understanding of our stakeholders and employees, we minimised the impact as best possible, and identified opportunities wherever we were able.

Rio 2016 Olympic and Paralympic qualification is progressing as anticipated; cycling is targeting 5 - 7 medals (2 - 3 gold) across 18 medal events at the Olympic Games, and 9 - 11 medals (4 - 5 gold) at the Paralympic Games, and we remain on track to achieve this. Respective Olympic discipline preparation plans are currently being finalised in close consultation with the Australian Olympic Committee (AOC), Australian Paralympic Committee (APC) and AIS.

The HPU continues to strive for excellence, reviewing and evolving our processes and systems, in consultation and collaboration with our valued stakeholders (State Institutes of Sport (SIS)/ State Academies of Sport (SAS), AIS, Australian Sports Commission (ASC), Australian Commonwealth Games Association (ACGA), AOC, APC), to achieve sustainable long-term success for cycling in Australia well beyond Rio 2016.

## PERFORMANCE HIGHLIGHTS

The stand out performances for 2015 include:

- UCI Road World Championships, Richmond, USA, 19-27 September: 2nd and 6th in the Elite Men's Road Race; three elite women placed in the top 20 in the road race. 4th Elite Women's ITT; 6th Elite Men's ITT (mechanical); 7th U23 Men's ITT (mechanical); 3rd Junior Women's ITT. Australia finished the championships the third ranked nation.
- 9 medals (3 gold) at the 2015 UCI Para-cycling Road World Championships, Nottwil, Switzerland, 29 July - 2 August.
- 4 gold, 5 silver and 3 bronze at the 2014 UCI Junior Track World Championships, Astana, Kazakhstan, 8-12 August. Australia finished second nation, however won the most medals (12 total).
- 1 silver (elite women) at 2015 UCI BMX Elite World Championships, Zolder, Belgium, 21-25 July. In addition two elite men made the final, and 1 gold in the U19 Men's Time Trial.
- 3 gold, 3 silver and 4 bronze (11 total) medals at the 2015 UCI Para-cycling Track World Championships, Apeldoorn, Holland, 26-29 March.
- 4 gold, 4 silver and 3 bronze at the 2015 UCI Track World Championships in Paris, France, 18-22 February. Australia finished second, behind France, and won the most medals of any nation (11 total).
- The World Tour Academy (WTA) claimed three major international wins in the U23 Tour of Flanders and Giro Valle d'Aosta prologue and overall general classification, along with 2nd overall in Tour de L'Avenir (U23 Tour de France).
- Orica-AIS Women's Professional Road Team ranked No. 5 in the world, had over the course of the season 16 victories, 20-second places and 14-third places.

## FACILITIES

---

A comprehensive refurbishment of the HPU facility at the Adelaide Super-Drome was completed in May following extensive consultation between Cycling Australia (CA), AIS and the Office for Recreation and Sport (ORS). This was funded by a capital works grant - provided by the ASC enhancement of athlete performance and we prioritised spaces and new training equipment. We now have a new heavy weights gym, air-conditioned ergometer room, athlete lounge / break-out area and physical therapy treatment rooms on site.

The HPU continues to operate satellite HP centres for BMX in Queensland and in Europe for endurance international competition and preparation, e.g., through U23 World Tour Academy and Orica-AIS women's road teams. The AIS Pizzey Park facility on the Gold Coast in Queensland is integral for supporting BMXA HP program athletes, and maximises access to the Chandler Super-cross (SX) track in Brisbane. The AIS European Training Centre (ETC) in Gavirate (VA) Italy is a multisport facility and operates as the hub for specialist athlete support. The CA HPU occupies office space within the ETC, with self-contained rental apartment accommodation 500m away in the village centre for the majority of our European program staff and athletes. The relationship between the CA and AIS staff at the ETC is excellent, providing an optimal performance support environment, which has been extremely beneficial, as we had a particularly high demand on medical support for the treatment and management of injury and illness experienced by our athletes and staff this year.

Additionally the HPU rents a warehouse in Italy, for the storage of program equipment and vehicles in Europe, located in an industrial area 20km from Gavirate. CA shares this building with Orica-GreenEDGE (OGE) World Tour team. Despite security measures, we had the unfortunate experiences of two professional break-ins this year, losing a large amount of equipment (primarily road bicycles). OGE have assisted us, both in replacing priority equipment items from their sponsorship stocks, and with insurance claims. CA and OGE have now further upgraded security measures with increased external alarm sensors, strengthened doors, internal lock-up storage containers, and on-site security surveillance, which we hope will reduce the risk of future break-ins.

## INITIATIVES AND PLANS

---

### Some of the highlights of our plans include:

- Upgrade of the CA HPU Adelaide-Superdrome administration / office space, meeting rooms and performance areas completed in May.
- The SA Minister for Sport, Leon Bignell, visited the HPU in August.
- CA HPU national athlete pathway framework document has been completed and circulated following close consultation with SSOs, SIS / SAS and our national network coaches.
- AIS performance leaders courses have been developed and facilitated by the Melbourne Business School, have been undertaken by the majority of senior HP management and national coaching staff (ongoing).
- The addition of Andy Warr (AIS), CA HPU performance systems manager, has raised our level of professionalism and is having a direct impact on performance and securing multiple AIS grants for special undertakings whilst managing these projects, and coordinating our SSSM service team.
- Transition of Ian McKenzie into a technical and programing role is having a major positive impact on the women's track endurance program.
- Alex Bird, 2012 London Olympic Games reserve, appointed as assistant sprint coach (i.e. scholarship coach), is working closely with the HPU sprint program in Adelaide.
- Ongoing refinement and review of individual athlete performance plans and program performance plans continue to enhance the delivery of customised performance services and support.
- Former PhD scholars secured in FTE positions aligned with priority HPU programs, through partnerships with the AIS, SIS / SAS and university system.
- Recruitment of senior personal excellence adviser, funded by the AIS, employed by South Australian Sports Institute, embedded in the HPU environment in Adelaide, to further enhance and complement the delivery and coordination of athlete support, in collaboration with sports psychology and welfare services.

- Continue to support and evolve the national junior track series and our national junior programs to ensure a consistent identification and delivery of high calibre talent into our national programs.
- In collaboration with the AIS, positive progress being made with online Athlete Management System (AMS), a centralised repository of all critical athlete data.
- Dr Katie Slattery, NSWIS sports scientist, seconded to the women's track endurance program to provide applied sports science support.
- Inaugural "Teaming for Success Symposium" hosted by the CA HPU in Adelaide, 14-15 October, with National Institute network directors, CEOs, program managers and coaches.
- Continue to strengthen relationships with network stakeholders e.g. attendance by senior HPU staff at NSWIS 2017+ workshop in August.
- AIS AWE Performance Planning Presentation – 2020 and beyond, was made by CA on 19 November in Canberra.
- Two AOC/AIS campaign Rio forums attended in Canberra by NPD and GM-HPU.
- Attendance at Rio Road Test event in August and BMX Test event in October.
- AOC IGNITE sessions attended by all prospective Rio cycling shadow squad athletes and officials – AOC ASPIRE sessions to be conducted and attended in early 2016.
- Internal Rio 2016 pre-mortem workshop conducted in September with key HPU and Olympic team staff to focus our attention on the fine detail, to ensure world's best processes are in place as we finalise respective program Olympic preparations.

- Final Rio 2016 AOC NF pre-games preparation meeting attended by CA in Sydney, 18 November.
- The HPU continues to work closely with BMXA and the AIS, to manage the BMX HP program, despite some governance challenges that are being resolved.

## STAFFING

The HPU is now operating with 33 full-time and 13 core part-time employees and consultants; 46 staff in total; including a PhD scholar and a scholarship coach; six are AIS employed and four are SIS/SAS employed. In addition the HPU contracts a dozen plus casual staff, engaged on a part-time basis, to provide specialist support, primarily soft tissue therapists/soigneurs and mechanics. The HPU discontinued the professional men's road coordinator/neo pro mentor role, and planned BMX specific scholarship coach, along with a reduction in contractor positions.

In June, world-renowned and leading AIS sports scientist, Dr David T. Martin, accepted a two year contract with the Philadelphia 76ers NBA team. Dave has been instrumental in Australian cycling's success over the past 21 years, working closely with our athletes and coaches as an applied sports physiologist, and CA's sports science coordinator. Whilst we will remain in close contact with Dave, his departure is nonetheless a significant loss to our HP system.

Past and present sports science PhD scholars and staff have been hand-picked and groomed by Dave over the years including: Dr Scott Gardner; Marc Quod; Dr Tammie Ebert; Nick Flyger; Dr Eric Haakonssen; Jason Bartram and Dr Paolo Menaspa. All are major players and highly respected practitioners in the world of elite sport and either have, or continue to provide support to our HP system.

Mark Gregory commenced as senior personal excellence adviser in August, an initiative funded by the AIS, employed by SASI, based with the HPU in Adelaide three days, and SASI two days per week. The personal excellence program is athlete focused, providing career guidance, resources and educational opportunities to Adelaide and internationally based CA AWE categorised athletes.

This role replaces the athlete career and education (ACE) program, and will work in close consultation and collaboration with existing CA HPU athlete welfare and performance psychology staff.

Mark holds a Bachelor of Behavioural Science (Psychology), has over 11 years' experience as a career development consultant at Flinders University, is a current member of the National Association of Graduate Careers Advisory Services (NAGCAS) and continues to volunteer his time supporting cycling clubs and events.

Rik Fulcher has commenced full-time employment with the HPU in Adelaide in the new role of logistics and administration team leader, filling the program administration position that has been vacant since August. Rik will be the HPU program

administrator for para, BMX and junior programs, and will retain his current responsibilities as a national team manager and the U19 junior coordinator

Additionally, Shaun Stephens started in August with the AIS as the new performance manager for cycling, based in Canberra. Shaun replaces David Tillotson, and is essentially the conduit between the AIS/ASC and the CA HPU in Adelaide.

## ACKNOWLEDGEMENTS

It is a privilege to work with such a passionate and professional team of people, athletes and staff, who are committed, day in day out, to see Australian cycling achieve sustained, world-class practices and performances. The long-standing partnerships with our extensive network of stakeholders and sponsors continue to evolve and strengthen, without whom we could not optimally service or support our ambitious scope of HPU discipline programs (track, road, BMX, para, junior U19) – on behalf of the HPU, thank you.

### KEVIN TABOTTA

National Performance Director

### PAUL BROSNAN

General Manager

Annette Edmondson (SA), Ashlee Ankudinoff (NSW), Amy Cure (TAS) and Melissa Hoskins (WA) all smiles after winning the team pursuit world title at the 2015 UCI Track Cycling Championships

# PARA-CYCLING HIGH PERFORMANCE PROGRAM

Para-cycling as a discipline within Cycling Australia's (CA's) high performance unit works cooperatively with CA's coaching and development department, and respective commissions. Para-cycling development, national level events and international competition are a priority focus, as are the Paralympics and world championships.

In 2015 we competed in world track and road championships and two road world cups with the clear objective, to secure qualifying points towards Rio 2016 Paralympics. With points available to secure a top ten placing, our strategy was to gain maximum points whilst also creating an international competition pathway for the development of identified para-cyclists.

## PERFORMANCE HIGHLIGHTS

### World Championships

Australia finished fifth on the medal tally at the para-cycling world track championships in Apeldoorn, Holland, 26-29 March, with a total of 11 medals: 3 gold, 4 silver and 4 bronze.

The gold medal performances included Sue Powell and Michael Gallagher winning their respective Individual pursuits and Alistair Donohoe the men's scratch race.

There was much uncertainty in regards to the venue and timing of these championships due to a concern with the Apeldoorn Track surface, which was originally deemed unsafe by the UCI due to splintering. The track was repaired and the dates confirmed, albeit very late, requiring expert planning and preparation for these championships.

The weather was cold and wet, and unfortunately several members of the team were severely affected by colds and flu: most affected was our tandem pairing of Matt Formston and Mick Curran, with Matt very lucky to compete, let alone come away with a silver medal.

Alistair Donohoe rode extremely well and continued to demonstrate his versatility with silver medals in the 1k time trial and individual pursuit. He also teamed with Michael Gallagher in the C4-5 combined scratch race, in what was the most exciting race of the championships, seeing Australia finish first and third.

The standard of competition was very high with 153 competitors from 30 nations represented, with these championships being a priority qualification event for 2016 Rio Paralympics.

**HIGH PERFORMANCE UNIT**

### World Road Championships

Australia concluded the 2015 UCI para-cycling road world championships in Nottwil, Switzerland, 29 July - 2 August, with nine medals including three gold, four silver and two bronze, placing 6th overall on the nations ranking.

Australia's breakthrough performance of these championships was the gold medal performance of Kyle Bridgwood in the C4 ITT. Kyle, who is a relatively new member of the para-cycling team, was rewarded for his dedication and commitment with his first rainbow jersey.

Carol Cook (trike 2) won the individual time trial but was beaten into silver in the road race. Competition has really stepped up as everyone progresses towards Rio. Alistair Donohoe defended his world championship jersey with a confident sprint in the men's C5 road race.

Sue Powell (road race) and Alex Green (ITT) both rode very well taking silver C4 medals with Simone Kennedy again demonstrating her consistency with bronze C3 in both the road race and ITT.

As part of para-cycling's continued development of the discipline of hand-cycling, it is pleasing to note that in the H1 classification Grant Nichol qualified for the world championships and finished a very credible 5th in his first world championships. Emilie Miller was also selected for her first world championships to ensure her continued development and international classification as one of only several H1 women competing in the world. A very big thank you to Grant's wife Trish, and Emilie's mum Donna who travelled with the team.

### UCI Road World Cup Champion

It was very pleasing to see Alistair Donohoe named as 2015 UCI world cup champion, C5 men, following his outstanding performances during the world cups.

## INITIATIVES AND PLANS

In cooperation with James Victor and the U23 men's road high performance program, we have agreed for Alistair Donohoe and Kyle Bridgwood to be overseen by para-cycling coach Tom Skulander for training with the U23's at an altitude camp in Livigno, Italy, in preparation for the world para-cycling road championships. This initiative proved very successful with future attachments being considered in our plans and preparation for Rio.

## ACKNOWLEDGEMENTS

Thanks to the various state associations, their commissaires and volunteers for conducting events for para-cyclists; without your continued commitment, there would be little to no competition opportunities for para-cyclists. A big thanks to team manager Murray Lydeamore who works tirelessly to ensure efficient and effective management of the overall team - especially with regards to logistics - which are substantial when moving a big team of physically-impaired athletes.

All athletes and staff are extremely appreciative of the Australian Paralympic Committee management and staff for their assistance and contribution across the various aspects of the para-cycling high performance program. I would like to recognise the support of SIS/SAS and their coaches as the para-cycling program strives to deliver on AIS/ASC winning edge targets, and thank the high performance management team and all staff who assist with the operations of the para-cycling program.

### PETER DAY

Para-Cycling Performance Director/Head Coach

# SPORT

The 2015 sporting calendar showcased a number of fantastic national and international races. The inclusion of the inaugural Cadel Evans Great Ocean Road Race (CEGORR) ensured the 'summer of cycling' racing season was off to a great start. This event was a fitting tribute to acknowledge the significant contribution that Cadel has made to cycling.

It was pleasing to have three UCI sanctioned events start the racing season, with the prestigious UCI World Tour Down Under and the Herald Sun Tour ensuring cycling fans could watch and experience world class racing first hand.

In January, Ballarat once again played host to the Australian championship for road cycling, which coincided with the announcement of a new two-year broadcasting agreement with both Channel 9 and Fox Sports, which broadcast many races on free-to-air and subscriber national television.

The nationals continued to drive strong economic results for the Ballarat region and I thank the City of Ballarat and the Ballarat community for providing their ongoing support in hosting this championship event.

We all watched with pride as our green and gold national champion jerseys were worn around the world by Heinrich Haussler and Peta Mullens. The nationals continue to be Cycling Australia's marquee event and an important opportunity for us to showcase the sport.

The 2015 CA track championships delivered quality racing and we will remember this event for expert management by Cycling Victoria. Also, we commend the efforts of Jack Bobridge who's world hour record attempt to beat the record set by Matthias Brändle in October 2014 - clocking up 51.300km at the DISC Velodrome - will be remembered for a long time. We also congratulate Rohan Dennis who went on to break the world record later in the year, with a distance of 52.491kms.

The 2015 Subaru National Road Series (NRS) has once again provided Australia's finest men and women professionals with a world-class platform to showcase their talent at home. We were pleased that the women's NRS expanded to ten events, with two new events in January coinciding with two of Australia's international races - the Tour Down Under and the CEGORR. Overall, the NRS featured over 50 days of racing across 21 events, with features such as the Tour of Tasmania and the 100th edition of Australia's oldest one-day race, the Melbourne to Warrnambool.

There continues to be some key areas targeted for ongoing development across the NRS, and we will work with organisers, teams and commissaires to implement a review to address these, and plan for continued growth.

National standard racing was offered to riders through the national junior track series, Subaru national road series and the national para-cycling series, along with a suite of other national championships from masters to our future stars in junior age group championships. These competitions will continue to be a focus for us, and we intend to further develop and improve these over time, to provide safe and sustainable racing for all.

I would like to thank all of the sponsors and partners for their continued support with our events program.

On behalf of our team, I'd also like to recognise the enormous contribution from the vast group of volunteers, officials and staff who make our events possible and their continued commitment to ensuring we deliver a world-class events program.

# PARTICIPATION

This year has been productive for participation and we've continued to focus on the establishment and development of national programs for women: *She Rides*, and children: *Let's Ride* - that provide opportunities for Cycling Australia (CA) to talk and engage with new audiences, outside of our traditional racing channels. This is a critical step to further grow participation across active cyclists, to rider and finally racer.

Participation in our entry-level programs provides CA with an important platform to support and communicate with target audiences of people who ride bikes, offering opportunities for further involvement through membership, rides and other programs. This investment continues to support our largest growing membership category: recreational cycling - which now makes up over 30% of our membership base. Importantly, CA has seen increased female membership in both recreational and racing categories for 2014-15, which is encouraging.

In conjunction with establishing our participation programs, we have looked to align the junior policy and the coaching framework to meet both participation and performance outcomes. This ensures we have the capability to continue to grow and service member needs into the future.

## MEMBERSHIP

Overall membership rose by 3.5% on figures reported in last year's annual report. This is largely due to the continued growth of the recreational category, which grew by 11%. Total membership was 26,724 when recognising all memberships sold in 2014-15, including three-month memberships. Importantly, total female membership has increased by 3% this year with rises in both recreational and race categories.

Our racing memberships for elite, U19, U15 and U13 categories have continued to slowly decline over the last four years. The U23 and U17 categories have shown growth with the masters category remaining stable.

This year has seen the establishment of a membership working party to review our existing member offering. We undertook consumer research with our existing members to better understand the needs and perceptions of current and lapsed members. This was an important exercise that assisted us in the simplification of our 2016 member offer. Additionally, the research findings have helped develop our strategies to improve communication with member segments, and establish a high level marketing plan to guide the 2016 membership growth campaign.

## JUNIOR POLICY

This year we conducted an extensive review of our junior policy for participation in cycling in consultation with states, coaches, race organisers, administrators and high performance staff. Released in May 2015, the updated junior policy included key changes needed to meet the changing landscape of Australian sport including alignment with the Australian Sports Commissions junior sport guidelines, current expectations of the provision of sport across the industry and the need to recognise and include recreational participation in junior ages as entry points to cycling participation.

A key addition to the policy has been the inclusion of age-appropriate activities for the competitive stream of cycling in both training and racing environments. These changes are aimed at ensuring the sport provides safe and positive experiences for all juniors, and to make our membership categories appeal to a wider audience.

## SHE RIDES

The second year of *She Rides* was truly successful. Participation in programs doubled on the inaugural year to 804 women. The program expanded with the introduction of Basic and Together offerings to support our existing Confidence Program. This allowed the program to better cater for and support the varying ability and fitness levels of women participating. The program also increased its reach with availability in over 40 locations nationally and uniquely engages women aged 18 to 77 years old, proving you're never too old to ride.

One of the key strategies behind *She Rides* has been to create a branded program that appeals to women through a user pay model. This sees participant registrations contributing over 60% of funding needed to deliver programs. Results show 86% of *She Rides* participants have had no prior involvement with CA's network prior to *She Rides*; and from the outset the program has been able to show a transition (9%) of participants into recreational membership. The challenge remains balancing the consolidation of early success through improvements in the systems driving the program, and creating opportunities and pathways for participation through existing CA activities.

She Rides has attracted widespread media interest over the last 12 months including 54 published pieces in either print, radio, television and online sources with the highlights including national coverage on Channel 9, ABC News and Channel 9 in Perth. This awareness has assisted in growing the She Rides Facebook followers by over 46% on the previous year to over 5,300 followers.

Importantly the program is achieving significant shifts in riding behaviours. Results show improved confidence and abilities for women to ride safely in both traffic-free and traffic environments. The program has also seen significant shifts in women's attitudes and behaviours to ride on shared pathways, with family, on quiet roads and in traffic.

## LET'S RIDE

After an extensive and detailed development process including consumer insights, product offering development, brand, marketing and design, our first Let's Ride programs commenced in Term 3 2015. This coincided with the introduction of

the Sporting Schools Program, launched by the Australian Sports Commission, reaching over 5,000 primary schools over the next three years. CA is one of 32 national sporting organisations (NSO's) involved in the initiative to get Australian children active and enjoying sport to foster lifelong participation.

Let's Ride is a series of bike riding programs designed for children to have fun through interactive and practical sessions that teach children progressive bike riding skills and to ride safely in a range of environments. We want to provide Australian children with the ability to ride their bikes for fitness, health and fun, opening the opportunity to connect to the sport of cycling. A key component of the program is engagement with parents, understanding the important role they play in a child's early riding experiences.

We have been delighted with the interested and support shown by accredited coaches and the cycling community in general towards the introduction of Let's Ride. We have been progressively building our capacity to deliver programs nationally and have already identified 49 locations for delivery centres of Let's Ride. To support this growth, we are planning a number of coaching courses to help develop the workforce supporting and delivering future programs.

## COACHING

Earlier this year the Australian Sports Commission released changes to the national coaching accreditation scheme to address the changing sports landscape and the need for sport to better support coaching outcomes across both participation and performance. The national changes will see CA update and re-align its coach accreditation framework in 2016. This will involve looking at ways CA can be more innovative in the provision and delivery of coach education, and further utilise technology to assist learning to be more interactive, progressive and customer-focused. This approach is already being piloted in 2015 with the level 2 road and track course, through the introduction of a series of webinar sessions. Information and content is delivered in a more progressive manner to assist coaches in the application of knowledge and content. This has taken away some of the barriers created by distance, and cost of accessing world-class knowledge. We are excited by the results and feedback so far, and are already looking to develop similar approaches for other courses in 2016.

## AUSTCYCLE

AustCycle's provider network has continued to deliver cycle training to assist Australians to enjoy riding bikes safely. Over the last 12 months this has included the provision of training to over 21,000 adults and children in over 30 locations. The results each year highlight the importance cycle training has in enabling more Australians to ride in the community.

2015 saw AustCycle continue its relationship with the Roads and Maritime Service NSW to conduct aboriginal bicycle safety programs across NSW. Held in both metropolitan and regional settings, AustCycle delivered 40 programs teaching 910 children greater awareness and skills to ride safely.

## ACKNOWLEDGEMENTS

I would like to acknowledge and thank the CA staff, states, clubs, administrators, coaches and instructors who continue to assist and provide opportunities for new audiences to enjoy what cycling has to offer. I look forward to continuing to work with you to grow CA's role in community cycling.

## GARETH WATKINS

General Manager Participation

# STATE ASSOCIATIONS

## CYCLING ACT

Membership of **Cycling ACT** has continued to increase during 2015, almost reaching 1,000. We're pleased to note that our rate of female members has continued to exceed the national average, at 20%+.

Cycling ACT has also become a founding member of Capital Cycling, an organisation intended to facilitate strategic integration and potential sharing of common services across cycling bodies within the ACT, namely Cycling ACT, Pedal Power ACT, MTBA local club CORC, and ACT BMX. Capital Cycling hosted the national capital tour on Cycling ACT's behalf - introducing graded races for the first time in that event's history - demonstrating their ability and potential to support us in our efforts to advance cycling in the ACT.

Cycling ACT continued the junior and women's tour in May and, through Capital Cycling, the national capital tour NRS event in September. In addition to the regular club races taking place throughout the year, the Canberra Cycling Club also continued the annual Tour de Femme in November.

### We have been strongly represented internationally:

- **Michael Matthews:** A stand out season for Michael with stages and leader's jerseys at Paris-Nice, Vuelta Ciclista al Pais Vasco, Giro d'Italia and Tour of Alberta. Plus podium finishes in classics Milano Sanremo, De Brabantse Pijl, Amstel Gold Race and Grand Prix Cycliste de Québec, and a silver medal at the world championships.
- **Gracie Elvin:** A breakthrough season for Canberra's Gracie, as the two-time national champion claimed her first win in Europe at Gooik-Geraardsbergen-Gooik, followed by a stage win in the Internationale Thüringen Rundfahrt der Frauen in the second half of the season.
- **Rebecca Wiasak:** Rebecca made her track world championship debut in February, and in her first event rode to her maiden world title, and an Australian record, in the individual pursuit, and claimed two medals at the national championships.

Other ACT cyclists continue to perform well on the international stage with Matthew Hayman, Michael Rogers, Rory Sutherland, Chloe Hosking, Adam Phelan, Nathan Haas and Nathan Hart. Para-cyclists Sue Powell, Paul Kennedy/Tom Clarke (pilot) and Brandie O'Connor/Breanna Hargrave (pilot SA) have also achieved international podium successes in world cups, world championships and the Commonwealth Games.

This year has seen significant changes at ACTAS with the departure of coach Ben Cook. A number of local Canberra coaches have stepped up to help us since Ben's departure and we thank Michael Aisbitt, Bec Doolan and Vicki Whitelaw for their support. We will continue to work closely with ACTAS in developing an ongoing strategy to ensure our elite and developing cyclists are well supported.

### The year ahead

- Strengthen our financial position, and our organisational effectiveness.
- Further refine a development strategy for our athletes and coaches.
- Continue working with the Capital Cycling initiative to further develop cycling in the ACT.
- Continue to expand the national capital tour NRS event.
- Solidify our growth objectives for track cycling and juniors.
- Work with the ACT government for better access to Stromlo Forest Park criterium circuit for training, and improve approvals process for road racing.
- Progress with planning to include lighting and additional in-field facilities on the Narrabundah Velodrome.

We are also finalising the ACT Cycling Federation strategic plan for 2016-20.

Thanks to Capital Cycling for hosting the national capital tour as well as to all of our commissaires, officials, volunteers and coaches for their commitment, dedication and enthusiasm for cycling in the ACT. A special thank you to outgoing President, Adrian Marshall, for all of his guidance developing Cycling ACT.

# CYCLING NEW SOUTH WALES

Following operational consolidation, 2014 -15 was a period where **Cycling NSW** took the opportunity to assess its progress and consider its future direction through our strategic planning process, shared at our AGM in May.

With a guiding statement of purpose being to provide each member with the very best of opportunities to pursue their passion of cycling, we identified four strategic pillars and associated objectives and milestones:

1. **Clubs** - clubs are a key provider of participation in our sport
2. **Participation** - participation is fundamental in growing our membership
3. **Pathways** - high performance outcomes are the showcase for our sport
4. **Organisational Strength** - organisational strength underpins all our goals and ambitions

The board and management team have been working to develop operational strategies to deliver across these four pillars. Further governance work has been undertaken, specifically around development of commissions in women, competitions and discipline to ensure engagement through the membership, and a broadening of the base of expertise available to the organisation.

Cycling NSW has taken a conservative approach to financial management and we have been able to expand staffing levels, including the appointment of a club and sport development co-ordinator. This role will work with clubs and members to develop organisational capability to better enable both Cycling NSW and our clubs to deliver a stronger proposition to members. This role has already enabled Cycling NSW to host numerous coaching courses over the past year, significantly increasing our ability to assist members to reach their riding potential.

Cycling NSW has worked hard to take a more external-facing position for the federation across the Cycling Australia family,

and with various stakeholders in New South Wales. Much of the work has been focused on relationship development with various government groups such as the NSW Police, and Sport & Recreation. We have regularly met with contacts – up to ministerial level – to advocate Cycling NSW's position on a raft of issues that ultimately concern our members, such as rider safety, access to roads for race activities, and the ongoing viability and access to Dunc Gray Velodrome. Success with NSW Police in terms of a more amenable approach to cycle race approvals has been welcomed this year.

In terms of core racing activity, this was largely comparative with the previous year in terms of numbers racing in "open events" and the number of events scheduled. We have noted a change in rider activity at open events, something Cycling NSW is working to better understand. We intend to develop a race schedule that responds to the dual needs of meeting general member expectations, and delivers a structure that supports the development of high performance athletes.

## NSW produced many fine results on the road and track

We produced a host of national champions across all disciplines and age categories, extending to several world champions: Ashlee Ankudinoff in the world record-breaking teams pursuit; Josie Talbot in the junior team pursuit; and Jamie Richardson a dual world champion in both the track and road time trial events in the C1 para-cycling category. NSW produced many outstanding masters results this year, headed by three individual world champions; Gary Mandy, David Willmott and Deborah Coulls, along with our sprint team of Gavin White, Daniel Ricard and Michael Smith.

As defined in our strategic plan, clubs are the sport's engine room – and we have one of the sport's greatest grass roots contributors in Margaret Hazell being recognised with a lifetime achievement award by the NSW Sports Federation for her work with the Dubbo Cycle Club. Margaret has never competed, but there is scarcely a role within the delivery of the sport that she has not been involved with. Likewise we were able to acknowledge Terry Matheson and Patrick Robinson with life membership for their many years of dedication and commitment to cycling.

**PHIL AYRES**  
CEO Cycling NSW

# CYCLING NORTHERN TERRITORY

Cycling in the **Northern Territory** has had an action-packed year. The collaboration of three cycling disciplines through the establishment of Pedals NT, the recruitment of Jason Bremner as executive officer, and advocacy group Bicycle NT is opening up a range of opportunities for the cycling community. Cycling NT is looking forward to seeing the results from this new development over the next 12 months.

Darwin Cycling Club and Alice Springs Cycling Club have both had significant changes in their club committees over the last year, along with changes to Cycling NT's governance structure and board members. Whilst this has taken a lot of hard work from all involved, we are benefitting from improved communication and efficiencies across the organisation. We're pleased to note a surge in junior rider numbers over recent months, holding regular club rides both on the track and roads. Both the NT clubs have a passionate group of committee members who are working hard to reinvigorate the sport in their respective areas.

Overall membership in the Northern Territory remained consistent with around 170 members. A significant number of non-CA recreational riders (over 350) took part in the 2015 Sunbuild Gran Fondo, run by the Darwin Cycling Club in August. The engagement of Epic Events and Marketing to project manage the event, alongside Pedals NT's support, ensured that the event moved to another level in terms of professionalism and capacity.

The wider cycling community in the Northern Territory is also being well supported with the City of Darwin bike plan due to be implemented over the coming year, and the NT Government providing funding for a mountain bike master plan to upgrade the BMX tracks in the NT. A \$1.5m investment has been granted to upgrade the Darwin velodrome to enable the cycling community to be well placed for the coming years.

Through the NT Government's peak sporting body grant, Cycling NT has been able to support a number of initiatives over the last 12 months to further develop the sport, including:

- A junior development camp was held in Darwin in June with 31 juniors from Darwin and Alice Springs with a number of coaches, providing access to professional development opportunities. Former Olympic champion, Brett Aitken assisted with the camp – Brett's attendance was much appreciated and the juniors truly valued his input to their development.
- Cycling NT ran a commissaires course in Alice Springs in June, resulting in another six qualified commissaires for Darwin and Alice Springs.
- Riders were supported to attend national junior track series events and Level 3 commissaires were supported to attend national events to maintain their experience levels during the summer of racing.
- The NT Championships were held in Alice Springs in October, bringing together more than 40 riders from both of the NT clubs for an exciting weekend of track and road competition.

## Looking to the future

Cycling NT is looking to continue to build the capacity of its clubs, particularly through Pedals NT. We will focus on the exciting opportunities that exist with promoting new CA products to the recreational cycling market.

Cycling NT continues to be supported by sports consultant, Paul Mead, who provides strategic and operational direction. With a new governance model and board, Cycling NT is positioned to take full advantage of the opportunities presented by CA and Pedals NT over the next 12 months.

Thanks must go to the NT Government and the Department of Sport and Recreation who have provided financial support over the last 12 months. Thanks also to the team at CA who provide a constant level of support to our largely volunteer-run organisation. And last, but definitely the most important, a huge thank you to the club volunteers who coach juniors, fix bikes, plan and conduct events, clean club houses, find sponsors, participate on committees and do all the things needed to keep our sport successful.

**BEN KAETHNER**  
Acting Chairperson

## BOARD MEMBERS AND EXECUTIVE

---

Acting Chairperson - Ben Kaethner

Vice Chairperson - Stuart Crompton

Public Officer - Stuart Crompton

Director - Reg Hatch

Finance Portfolio - Simon Murphy

Secretary Portfolio - Sonia Waller

## CYCLING QUEENSLAND

The last twelve months has seen some challenging times for **Cycling Queensland**, specifically as it relates to the stability of our team where we've seen higher than usual staff turnover – most notably our Chief Executive Officer, Geoff Rynne, resigned in February.

We were pleased to have our past president, Mike Victor, available (in a voluntary capacity) to manage the day-to-day operations of the office and we thank him for stepping in to support us. The board of Cycling Queensland appointed myself as the new Chief Executive Officer in June, when making the move from Cycling Australia (CA) to the sunshine state and Cycling Queensland.

There has been a concentrated effort by the board to address the financial position of the association, including the introduction of a new finance and audit committee, and a remuneration committee, to ensure we have the appropriate checks and balances in place. Further, we are reviewing and updating the Cycling Queensland strategic plan, with financial prudence at the centre of our efforts.

Ongoing discussions are progressing with key stakeholders in the state in regards to the conduct of road racing. The regulations and costs currently associated with road racing are a concern. With police and Traffic and Main Roads (TMR) open to discussions, we are treating this as a real opportunity for Queensland for the future.

Even with a substantial schedule of state championship and Queensland road team series events on the calendar, Cycling Queensland staff and volunteers hosted the Australian under-19 road championships and the Australian masters road championships. These events have been well supported by riders, and the local clubs on the Gold Coast and northern NSW. The clubs throughout the state continue to organise professional, well-attended events, despite the distances riders have to travel to participate.

The construction of the new indoor State Velodrome at Chandler is very much a talking point amongst the cycling fraternity and it will be a game changer for the sport in Queensland.

The new velodrome should be completed by July 2016. This Commonwealth Games legacy to the sport will be fundamental to the future of cycling in Queensland, and we are taking on the challenge of prior planning to play our part in ensuring it is hugely successful.

Development programs such as the JETS and Queensland talent squad continue to grow and underpin the Queensland high performance program. Results from these programs have included a large number of riders representing Australia, and recently Queensland's newest world champion: Kyle Bridgwood, C4 category. All of us at the Cycling Queensland team are confident that exciting times lie ahead for cycling in our state.

**SEAN MUIR**  
Chief Executive Officer

# CYCLING SOUTH AUSTRALIA

The last twelve months has seen a welcome turnaround in the financial performance of **Cycling South Australia**, while at the same time maintaining a focus on the delivery and promotion of quality racing.

A thank you to our many commissaires, officials, and volunteers who so willingly give their time to make sure we have a safe and exciting racing environment. Our premier team series continues to grow each year, last year with the addition of a broader range of racing opportunities to appeal to greater numbers of our membership, including masters, women and junior members.

We have been successful in obtaining a number of grants from the Office for Recreation and Sport that will ensure that we can continue to develop cycling in South Australia. Particularly exciting is the substantial funding that we received as part of the junior pathways project. This project is set to have a long-term effect on our junior development strategy, promoting junior competition development and participation, as well as impacting on coach and club development opportunities.

#### Highlights from the past year include:

- Securing a management agreement for the Adelaide Super-Drome through Office for Recreation and Sport, with increased use for training and racing, with a number of sessions for juniors scheduled, along with support from the South Australian Sports Institute.

- Victoria Park criterium racing has been well patronised by both competitors and spectators, the highlight being the finish of the Santos Women's Tour, as part of the Tour Down Under week, held in front of some 3,000 spectators.
- Cycling South Australia hosted the UCI C1 road event with 68 para-cyclists competing at Trinity College in Gawler. This was followed by the 2015 national road championships where over 50 athletes competed for national titles.
- Improvements have been made in the processes and systems used in the operations of Cycling South Australia identified as necessary by the board to support effective governance – and this continues to be a focus area for the board.

Our CEO, Peter Macdonald, and his team Kimberley Conte, Sean Turtur, Kim Murry and Ann McGee have shown an incredible amount of enthusiasm for the work they do. Their positive attitude is infectious and we thank them for their work. Finally, to the board of Cycling South Australia, thank you for your support and the work you have put in over the last year.

**HARRY BURKE**  
President

Peter Macdonald - CEO

# CYCLING TASMANIA

Membership continues to grow, (albeit slowly) but nevertheless increasing all the time, demonstrating an encouraging trend with currently 682 members. The board of **Cycling Tasmania** have an ongoing commitment to continued growth in membership numbers, conducting frequent *come & try* days, all of which have contributed to a steady growth in numbers, particularly with juniors.

Tasmania continues to produce national champions, both on the road and the track. Some of our international riders have won on the big stage this year with Richie Porte winning Paris Nice and taking out the coveted national elite time trial championship. Richie was a key member of the winning team (Team Sky) in this year's Tour de France, the third time in recent years.

There is a lot to be enthusiastic about with the talent coming through the ranks of our membership: Tasmania can boast the best elite women's team pursuit, winning the championship at this year's elite/U19 National Track Championships. In the Under 19, James Robinson was a member of the gold medal team pursuit at the recent junior 19 world track championships. Amy Cure continues to impress, both on the national and international stage, with wins nationally in the women's IP and world championship TP. Lauren Perry - in her first year as a senior - won the national women's scratch race championship, while Macey Stewart combined as a member of the women's team pursuit in a round of the track world cup, to take gold.

Sincere thanks to all our coaches and mentors of these special athletes who oversee their development, ensuring they peak at the right time for both national and international events. We are indeed fortunate to have such expertise performing these roles and we know the athletes appreciate their efforts.

## Looking Ahead

The board of Cycling Tasmania has endeavoured to meet all the highlights of our strategic plan and ensure we provide valued support for our membership. We continue to apply appropriate regulations in respect of road events and have continued to ensure strong legal, governance, and financial expertise.

Also, we have continued to lobby for a *metre matters* trials in Tasmania and have strong support from our local state minister and Tasmania Police to provide a framework for increased safety of our membership on public roads. With both Queensland and ACT pursuing this, it is very positive for our membership. Further, we have overhauled our state by-laws to bring these up to date with current conditions.

Board members of Cycling Tasmania report one newly elected member in the reporting period: Mrs Val James, a life member of Cycling Tasmania and a national level 3 commissaire, was elected at the last AGM. Val brings many years of experience having been in many administrative roles within her local club Mersey Valley Devonport Cycling Club (MVDCC). We have a stable and strong team at board level that is providing attractive and proven pathways for athletes in our sport.

Other members include the CEO of Tasmania's leading employer organisation, the Tasmanian Chamber of Commerce and Industry (TCCI), Michael Bailey, himself an active masters cyclist, who brings a range of management and business skills. Michael has attended an accreditation course and has been appointed to the role of member protection information officer for Cycling Tasmania.

The board extends a thank you to all our volunteers, who provide tremendous support and make competitions possible. We thank all our athletes who continue to support our road and track fixtures; and to our coaches, commissaires, clubs and their members who participate in our quarterly forums. And thanks to our CEO Collin Burns and administrative assistant Robyn Bailey. All of these people carry a significant workload throughout the year and we are grateful to them.

**NOEL PEARCE**  
President

# CYCLING VICTORIA

**We're proud to share a number of key accomplishments over the past 12 months:**

- Hosting of seven national championships, six national series and six national championship events.
- Introduction of new riding and racing opportunities.
- Simon Gerrans named Victorian male athlete of the year.
- Courtney Field named Victorian junior athlete of the year.

**Cycling Victoria has established a new strategic vision: *Building a Love of Cycling with the objective of more people riding, racing and watching. This vision includes five key areas of direction for our organisation:***

**More People Riding:** The building of riding-based programs is important in Victoria, with new programs launched:

**TryCycling:** designed to provide riding skills for people with a disability.

**Leading Rider:** designed to provide skills to those leading bunch rides.

**School Holiday Programs:** designed to provide young kids with riding opportunities during school holidays.

The challenge series continued with four events: Whittlesea, Macedon, Marysville and Baw Baw. We also partnered with VicHealth to introduce two new programs for women: pop-up spin classes, and older adults: touring by bike, launching soon. 2014 saw the introduction of 'The Women's Ride', this unique event allowed participants to take part in their own location in a variety of formats. This was a major success with over 50 events and 2,500 participants across Victoria.

**More People Racing:** In 2014 Cycling Victoria launched the inaugural Victorian interschools cycling series which saw in excess of 800 entries over the six rounds, and included the opportunity for schools to race on the Jayco Herald Sun tour final stage at Aarthurs Seat. Simon Gerrans has been instrumental in this series, as ambassador. The Victorian road series continues to be the highlight of the Victorian racing calendar, with 2,000+ participants. We are pleased Singapore Airlines joins us as the major naming rights sponsor.

We also introduced the first Victorian para-cycling series using the newly developed multi-class protocol. Victoria hosted seven national championships: junior track nationals, Australian omnium championships, Australian para-cycling track championships, Australian Madison championship, Australian cyclo-cross championships, Australian junior hill

climb championships, and national elite road championships. Additionally, Victoria played host to several national road series events including the Tour of the Murray, Tour of the Goldfields, Tour of the Great South Coast, Melbourne to Warrnambool, Tour of Gippsland and Amy's Otway Classic.

A re-shaping of track has seen a continued growth in track racing via the winter track series and new Melbourne Omnium series. Also, a number of UCI races were hosted in Victoria including the Herald Sun tour, Cadel Evans road race (men), Austral wheelrace, UCI para-cycling track carnival, Melbourne Cup on wheels and Amy's Gran Fondo.

To help support clubs and race organisers a new online planning program was rolled out for event organisers.

**More People Watching:** We hosted four UCI events including sell out crowds at Hisense Arena with the return of the 118th Austral Wheelrace, and the Melbourne Cup on wheels moving to a new winter date at the Darebin International Velodrome. During the national track championships DISC was also the location for the Jack Bobridge hour record attempt, another sell out crowd.

**Marketing:** Most of our marketing has focused on increasing our digital footprint, and we now have over 25,000 followers on our various social media channels. A number of sponsors have joined, or continued to partner with Cycling Victoria, including: the TAC, Winning Edge, Singapore Airlines, Physiohealth, Specialized and Crodyon Cycleworks.

**People:** People are at the cornerstone of everything we do and Cycling Victoria has recently completed an online program to help support the management and training of volunteers. This now provides a significant capability for Cycling Victoria to train and develop our people. We have also developed a number of new resources to support clubs, specifically an inclusive club accreditation and club guide to behaviour. Further, we have launched a historical results site with over 250,000 individual results.

Cycling Victoria would like to thank the tireless volunteers and clubs whose ongoing support drives the sport. We also thank our key partners Cycling Australia, BMX Victoria, the Victorian Institute of Sport, VicHealth and Sport and Recreation Victoria for their continued support.

**KIPP KAUFMANN**  
Chief Executive Officer

## CYCLING WESTERN AUSTRALIA

Our focus over the last 12 months at **CycleSport WA** has been to stabilise the organisation financially, and we're very pleased to share that we are now in a position to start to build capability that will deliver a higher level of service to members and clubs.

2014-15 represented the first full financial year for CycleSport WA, post Cycling Western Australia. Under the leadership of the board of CycleSport WA and Clint Shaw – our CEO until February – the organisation is now in a financially positive position, which will allow an increase in services to Cycling Australia members and the clubs throughout Western Australia. The structure of the organisation allows the board to provide strategic direction, with WestCycle delivering the services of the organisation. Through this streamlined and efficient approach, a significant contribution by the Department of Sport and Recreation, and the hard work and dedication of Toby Hodgson, operations manager, CycleSport WA is now on the cusp of a new and exciting phase for cycling in Western Australia.

We have seen a return to profit, largely by taking the organisation back to basics. Whilst this was a deliberate and required exercise, it is one that has impacted on the services we provide. We would like to take this opportunity to thank our clubs and members for the patience shown over this period as it now allows us to build for the future. In 2015-16 CycleSport WA will develop a new strategic plan for the organisation and will seek opportunities to reinvest to provide benefits to our members and clubs.

Cycling has continued its positive growth in Western Australia over the last 12 months. Membership has grown by 5% over this period, and the number of events run has increased. We also note an increasing trend of members participating at club events.

The success of our high performance program is driven by the dedication of Western Australia Institute of Sport (WAIS) and we thank Clay Worthington, Andrew Jackson and the entire team at WAIS. Their passion for the sport and the success of athletes is incredible. We have seen significant achievements from our athletes over the last 12 months at all levels, and we congratulate them all for their hard work and determination.

Cycling is a sport that requires the services of numerous volunteers, without them the sport would not exist. From the mums and dads, the corner marshals, coaches and the commissaires, to the board of CycleSport WA, who all volunteer their time – your commitment to the success of cycling is what makes it possible. We thank you for the hours of service you provide.

On a personal note I would like to thank Clint Shaw, departing CEO of WestCycle, for the energy that he put into the revival of CycleSport WA. He guided the organisation through some challenging times and without his expertise and passion we would not be in the position that we are today. I thoroughly look forward to picking up where Clint left off and I'm excited by the potential we have in Western Australia.

**MATT FULTON**  
Chief Executive Officer

Matthew Dever	19 September 2014		9/10
Leeanne Grantham	19 September 2014		10/10
Linda Evans	19 September 2014		9/10
Justin Quill	19 September 2014		6/10

## BOARD COMPOSITION

Cycling Australia's nominations committee was responsible for recruiting the new board in 2014 with the appropriate mix of skills to meet the organisation's strategic goals. Since this time, the committee has initiated the recruitment of two additional directors (in October 2015) to complement the existing board.

## BOARD OPERATION

Since the new board has been in place, from 15 September 2014, the following ASC mandatory requirements have been adopted/progressed:

- The nominations committee charter has been completed and approved by the board. This includes a skills matrix that is used to determine opportunities to strengthen the board.
- An audit and risk committee charter has been completed and approved by the board.
- The conflict of interests register continues to be updated and enforced, noting all directors are independent.
- Ten directors meetings were held in the financial year ending 30 June 2015. An annual board performance process is being evaluated for introduction during the year ending 30 June 2016.

## TRANSPARENCY, REPORTING AND INTEGRITY

Cycling Australia works closely with the ASC to provide information in a timely manner. During 2015, Cycling Australia developed a new strategic direction. In 2016 this will be developed further to include measurable objectives, KPIs and a detailed three-year forward financial model.

Cycling Australia has detailed policies and protocols with regard to anti-doping, sports science and match fixing - the details of which are available on the Cycling Australia website. The board approves all policy updates and is apprised of any issues that arise. During the 2016 year the board will consider the policy review framework and any additional board oversight requirements.

Additional disclosure in relation to remuneration for key management positions is detailed below.

## KEY MANAGEMENT PERSONNEL DISCLOSURES

During the year, five key management personnel were compensated as follows:

REMUNERATION BAND	NUMBER OF STAFF IN BAND FOR YEAR ENDED 30 JUNE 2015
\$1 - \$99,000	0
\$100,000 - \$199,000	4
\$200,000 - \$299,000	1
Total	5

KMP TOTAL EXPENSE SUMMARY	\$ YEAR ENDED 30 JUNE 2015
Total remuneration due or receivable to key management personnel inclusive of bonus/incentive payments	\$748,690

## GENDER BALANCE ON BOARD - TARGET 40%

29%

Our overall gender balance as per the table on the left

33%

The current percentage of women on our Board

The recruitment of two additional directors in October 2015 will see the percentage of women on our board increase to 33%.

## STRATEGIC ALIGNMENT WITH STATE MEMBER ORGANISATIONS

Cycling Australia's constitution requires alignment between the strategic plans of Cycling Australia and the member state organisations. Cycling Australia's strategic vision was formulated during 2015. In 2016 Cycling Australia will present the strategic vision and work through the alignment of this with each of the member states.

# ANTI-DOPING

The focus of Cycling Australia's (CA's) anti-doping team this year has been on the implementation of the recommendations from the Wood Review. Many of Justice Wood's recommendations concentrate on governance and education processes, which are continuously reviewed and updated.

CA staff and athletes continue to complete the no doping declaration; and the ethics and integrity panel is currently reviewing and updating the declaration. CA staff, athletes, as well as non-members, continue to take the ASADA online eLearning Level 1 and 2 courses; and comply with reading the online updates ASADA publishes throughout the year.

The CA supplements committee continues to work closely with the high performance unit, ensuring a consistent message is sent to athletes in relation to supplements. The supplements policy can be found in the anti-doping section of our website.

Mountain Bike Australia (MTBA) has also welcomed CA's support around anti-doping including processes, education and documentation. MTBA is working with the anti-doping manager to develop and implement these processes and education strategies.

Overall, the Wood Review provided us with solid guidelines to work to, and we are committed to implementing and maintaining those recommendations now and in the years to come.

## ASADA TESTING STATISTICS 2014-15

### IN COMPETITION - TOTAL 167

**97**  
URINE  
COLLECTIONS

**70**  
BLOOD  
COLLECTIONS

**116**  
URINE  
COLLECTIONS

### ASADA E-LEARNING STATISTICS

**621**

Completions of the Level 1 and / or Level 2 course

**216**

Increase from the previous year

**265**

Increase of people who went on to complete the Level 2 course

**11**

Amount of support personnel who completed the Level 1 and/or Level 2 course

## TESTING

---

We have continued to cooperate and consult with the Australian Sports Anti-Doping Authority (ASADA), World Anti-Doping Authority (WADA), Cycling Anti-Doping Foundation (CADF), and the UCI in the fight against doping in cycling. The table below represents the high level of testing from ASADA - in and out of competition - during 2014-15.

## EDUCATION

---

CA is committed to the continuing education of its members in anti-doping. ASADA re-developed the Level 1 online course to make it more modern, user-friendly, and code compliant. There was a minor decrease in the numbers completing Level 1 and/or Level 2. This decrease is due to the number of members who have already completed the Level 1 course in the previous financial year. Further, there was a 60% increase in support personnel who completed Level 1 and/or Level 2.

**SONYA SIMPSON**  
Anti-Doping Manager

## OUT OF COMPETITION - TOTAL 250

**134**  
BLOOD  
COLLECTIONS

Cycling Australia's zero tolerance towards doping and commitment to educating our members continues to be a high priority. Our strategies include ongoing anti-doping education, positive role models and frequent testing at CA's sanctioned events.

# DIRECTORS' REPORT

The directors present their report together with the financial report of Cycling Australia Limited for the year ended 30 June 2015 and auditor's report thereon.

## DIRECTOR NAMES

Lloyd Freeburn	(Appointed 9 November 2013, Resigned 15 October 2014)
Gerry Ryan OAM	(Appointed 9 November 2013, Resigned 19 May 2015)
Malcolm Speed AO	(Appointed 30 April 2014)
Anthony Griffin	(Appointed 19 September 2014)
David Ansell	(Appointed 19 September 2014)
Matthew Dever	(Appointed 19 September 2014)
Leeanne Grantham	(Appointed 19 September 2014)
Linda Evans	(Appointed 19 September 2014)
Justin Quill	(Appointed 19 September 2014)
Kevin Russell	(Appointed 13 October 2015)
Anne Gripper	(Appointed 13 October 2015)

The directors have been in office since the start of the year to the date of this report unless otherwise stated.

## RESULTS

The surplus of the company for the year amounted to \$184,524.

## SHORT-TERM AND LONG-TERM OBJECTIVES AND STRATEGIES

---

### **The company's short-term objectives:**

The growth of cycling is a shared responsibility of many stakeholders. In the short term Cycling Australia will aim to unify the important industry and sport partners, collaborate with Member States and Clubs, protect, promote and uphold the values of cycling, while looking to strengthen cycling's voice on important advocacy matters.

### **The company's long-term objectives:**

Cycling Australia's strategic platforms will continue to secure our global competitiveness, diversify our revenue streams and build a solid base for future investment. It will focus on growing our membership base and accessing the recreational rider. A sharp focus on women and youth will drive our engagement and participation focus. New media presents us with an opportunity to grow Cycling Australia's brand and visibility and to make riding a bike everyone's business.

### **To achieve its short-term and long-term objectives, the company has adopted the following strategies:**

- Drive our global competitiveness, enabling consistent and sustained success
- Connect and engage with all cyclists, and grow programs that focus on engagement with women and juniors
- Build cycling's visibility, year long, and our brand
- Strengthen cycling's voice, while leading important national advocacy matters
- Grow and diversify our revenue base, improving our financial shape and fuelling investment

## PRINCIPAL ACTIVITIES

---

To carry out the company's strategies and to achieve its short-term and long-term objectives, the company's principal activity was the promotion and administration of the sport of cycling in Australia.

## KEY PERFORMANCE INDICATORS

---

**To help evaluate whether the activities the company established during the year have achieved its short-term and long-term objectives, the company uses the following key performance indicators to measure, analyse and monitor its performance:**

- Direct engagement with the public in relation to Cycling Australia activities
- Membership numbers
- Net Profit and Loss
- Athlete performance at international events

# NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2015

## NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

This financial report is a special purpose financial report prepared in order to satisfy the financial report preparation requirements of the Corporations Act 2001. The directors have determined that the company is not a reporting entity.

The financial report was approved by the directors as at the date of the directors' report.

The financial report is for the entity Cycling Australia Limited as an individual entity. Cycling Australia Limited is a company limited by guarantee, incorporated and domiciled in Australia. Cycling Australia Limited is a not-for-profit entity for the purpose of preparing the financial statements.

The financial report has been prepared in accordance with the requirements of the Corporations Act 2001 and the following applicable Accounting Standards:

AASB 101:	Presentation of Financial Statements
AASB 107:	Cash Flow Statements
AASB 108:	Accounting Policies, Changes in Accounting Estimates and Errors
AASB 1031:	Materiality
AASB 1048:	Interpretation and Application of Standards
AASB 1054:	Australian Additional Disclosures

The following specific accounting policies, which are consistent with the previous period unless otherwise stated, have been adopted in the preparation of this report:

### (a) Basis of preparation of the financial report

#### HISTORICAL COST CONVENTION

The financial report has been prepared under the historical cost convention, as modified by revaluations to fair value for certain classes of assets as described in the accounting policies.

### (b) Going concern

The financial report has been prepared on a going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and the settlement of liabilities in the normal course of business. The company derived a surplus of \$184,524 for the year ended 30 June 2015. As at 30 June 2015 the company had cash assets of \$1,503,842, current assets of \$3,101,008 and current liabilities of \$4,154,349 and a deficiency of net assets of \$1,607,264. The financial report has been prepared on a going concern basis which the Directors consider to be appropriate based upon the forecast for the year ending 30 June 2016. The forecast is based on secured funding.

The forecast also relies on the company maintaining a reduced cost base. Therefore no adjustments have been made in respect of the recoverability and classification of recorded assets or the carrying amount and classification of liabilities that may be necessary if the company does not continue as a going concern.

### (c) Revenue

Revenue from sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer and the costs incurred or to be incurred in respect of the transaction can be measured reliably. Risks and rewards of ownership are considered passed to the buyer at the time of delivery of the goods to the customer.

Revenue from the rendering of services is recognised upon the delivery of the service to the customers.

Revenue from organising and hosting events, including corporate partnerships is recognised in the period in which the events are held.

Sponsorship revenue is recognised on an accruals basis in accordance with the sponsorship agreement.

Interest revenue is recognised when it becomes receivable on a proportional basis taking in to account the interest rates applicable to the financial assets.

Levies are recognised upon the invoice being issued.

Membership, insurance and licensing fees, service fees, donations, and other revenue are recognised when payment is received.

All revenue is stated net of the amount of goods and services tax (GST).

### (d) Contributions - Government Grants and Donations

When the entity receives grants but is obliged to give directly approximately equal value to the contributor, recognition of grant income will be deferred until the delivery of service.

### (e) Income tax

No provision for income tax has been raised as the company is exempt from income tax.

### (f) Cash and cash equivalents

Cash and cash equivalents include cash on hand and at banks, short-term deposits with an original maturity of three months or less held at call with financial institutions, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the statement of financial position.

### (g) Inventories

Inventories held for sale are measured at the lower of cost and net realisable value.

## **(h) Financial instruments**

### **CLASSIFICATION**

The company classifies its financial assets into the following categories: financial assets at fair value through profit and loss, loans and receivables, held-to-maturity investments, and available-for-sale financial assets. The classification depends on the purpose for which the instruments were acquired. Management determines the classification of its financial instruments at initial recognition.

### **HELD TO MATURITY INVESTMENTS**

Fixed term investments intended to be held to maturity are classified as held-to-maturity investments. They are measured at amortised cost using the effective interest rate method.

### **LOANS AND RECEIVABLES**

Loans and receivables are measured at fair value at inception and subsequently at amortised cost using the effective interest rate method.

### **FINANCIAL LIABILITIES**

Financial liabilities include trade payables, other creditors and loans from third parties including inter-entity balances and loans from or other amounts due to related entities.

Non-derivative financial liabilities are recognised at amortised cost, comprising original debt less principal payments and amortisation.

Financial liabilities are classified as current liabilities unless the entity has an unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

### **(i) Property, plant and equipment**

Each class of plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and any accumulated impairment losses.

### **PLANT AND EQUIPMENT**

Plant and equipment is measured on the cost basis.

### **DEPRECIATION**

The depreciable amount of all property, plant and equipment is depreciated over their estimated useful lives commencing from the time the asset is held ready for use. Land and the land component of any class of property, plant and equipment is not depreciated.

Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

<b>Class of fixed asset</b>	<b>Depreciation rates</b>	<b>Depreciation</b>
Leasehold improvements at cost	10%	Straight line
Plant, equipment at cost	10-33%	Straight line

### **(j) Intangibles**

### **EVENT RIGHTS**

Event rights are initially recognised at cost and then amortised on a straight line basis over their useful life. The balances are reviewed annually and any balance representing future benefits the realisation of which is considered to be no longer probable are written off. Event rights are amortised over their estimated useful life of 4 years.

### **WEBSITE COSTS**

Website costs are recognised at cost. They are amortised over their estimated useful lives of 4 years. Website costs are carried at cost less accumulated amortisation and any impairment losses.

### **(k) Impairment of non financial assets**

Intangible assets that have an indefinite useful life are not subject to amortisation and are therefore tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired.

An impairment loss is recognised where the carrying amount of the asset exceeds its recoverable amount. The recoverable amount of an asset is defined as the higher of its fair value less costs to sell and value in use.

The recoverable amount is assessed on the basis of the expected net cash flows which will be received from the assets employment and subsequent disposal. The expected net cash flows have been discounted to present values in determining recoverable amounts.

### **(l) Provisions**

Provisions are recognised when the company has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

# NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2015

## NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

### (m) Leases

Leases are classified at their inception as either operating or finance leases based on the economic substance of the agreement so as to reflect the risks and benefits incidental to ownership.

#### OPERATING LEASES

Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are recognised as an expense on a straight-line basis over the term of the lease.

Lease incentives received under operating leases are recognised as a liability and amortised on a straight-line basis over the life of the lease term.

### (n) Employee benefits

#### (i) Short term employee benefit obligations

Liabilities arising in respect of wages and salaries, annual leave and any other employee benefits expected to be settled within twelve months of the reporting date are measured at their nominal amounts based on remuneration rates which are expected to be paid when the liability is settled. The expected cost of short-term employee benefits in the form of compensated absences such as annual leave is recognised in the provision for employee benefits. All other short-term employee benefit obligations are presented as payables.

#### (ii) Long term employee benefit obligations

Liabilities arising in respect of long service leave and annual leave which is not expected to be settled within twelve months of the reporting date are measured at the present value of the estimated future cash outflow to be made in respect of services provided by employees up to the reporting date.

Employee benefit obligations are presented as current liabilities if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting date, regardless of when the actual settlement is expected to occur.

### (o) Goods and services tax (GST)

Revenues, expenses and purchased assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

### (p) Comparatives

Where necessary, comparative information has been reclassified and repositioned for consistency with current year disclosures.

### (q) Adoption of new and amended accounting standards that are first operative

There are no new and amended accounting standards effective for the financial year beginning 1 July 2014 which affect materially any amounts recorded or disclosed in the current or prior year.

## **NOTE 2: ACCOUNTING STANDARDS AND INTERPRETATIONS ISSUED BUT NOT OPERATIVE AT 30 JUNE 2015**

---

The following standards and interpretations have been issued at the reporting date but are not yet effective. The directors' assessment of the impact of these standards and interpretations is set out below; AASB 9: Financial Instruments and associated Amending Standards (applicable to annual reporting periods beginning on or after 1 January 2018). AASB 15: Revenue from Contracts with Customers (applicable to annual reporting periods commencing on or after 1 January 2018).

### **AASB 9 FINANCIAL INSTRUMENTS**

The Standard will be applicable retrospectively and includes revised requirements for the classification and measurement of financial instruments, revised recognition and derecognition requirements for financial instruments and simplified requirements for hedge accounting.

The key changes that may affect the company on initial application include certain simplifications to the classification of financial assets and upfront accounting for expected credit loss. Although the directors anticipate that the adoption of AASB 9 may have an impact on the company's financial instruments it is impracticable at this stage to provide a reasonable estimate of such impact.

### **AASB 15 REVENUE FROM CONTRACTS WITH CUSTOMERS**

AASB 15 introduces a five step process for revenue recognition with the core principle being for entities to recognise revenue to depict the transfer of goods or services to customers in amounts that reflect the consideration (that is, payment) to which the entity expects to be entitled in exchange for those goods or services. The five step approach is as follows:

- Step 1: Identify the contracts with the customer;
- Step 2: Identify the separate performance obligations;
- Step 3: Determine the transaction price;
- Step 4: Allocate the transaction price; and
- Step 5: Recognise revenue when a performance obligation is satisfied.

AASB 15 will also result in enhanced disclosures about revenue, provide guidance for transactions that were not previously addressed comprehensively (for example, service revenue and contract modifications) and improve guidance for multiple-element arrangements.

The changes in revenue recognition requirements in AASB 15 may cause changes to the timing and amount of revenue recorded in the financial statements as well as additional disclosures. The impact of AASB 15 has not yet been quantified.

## **NOTE 3: SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS**

---

In the application of the company's accounting policies, management is required to make judgements, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

# NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2015

## NOTE 19: CAPITAL AND LEASING COMMITMENTS

	2015	2014
	\$	\$
(a) Operating lease commitments		
Non cancellable operating leases contracted for but not capitalised in the financial statements:		
Payable		
- not later than one year	138,437	142,547
- later than one year and not later than five years	427,781	568,932
	<u>566,218</u>	<u>711,479</u>

Operating leases are for rental of an office and a camera with lease periods ranging from 1 to 10 years.

The property lease for the Mascot office is a non-cancellable lease which commenced on 1 June 2009, with a ten-year term, with rent payable monthly in advance. Contingent rental provisions within the lease agreement require that the minimum lease payments shall be increased by 3% per annum. The company is currently in negotiation with the Mascot landlord to settle the lease as the office building is soon to be demolished. As at the date of this report those negotiations had not been finalised.

Rental for the camera are reviewed each year in accordance with the relevant lease arrangements. Balances exclude GST.

(b) Capital expenditure commitments contracted for:

- infrastructure project	-	915,956
Payable		
- not later than one year	-	915,956
	<u>-</u>	<u>915,956</u>

The Company has a commitment in accordance with the funding agreement with the Australian Sports Commission, dated 29 July 2011 and variation agreement dated 29 June 2012, to expend \$1,000,000 in the construction of AIS/CA High Performance Cycling Office Accommodation at the Adelaide Super-Drome. As at 30 June 2015 all costs had been incurred in relation to the project, and construction had been completed.

## NOTE 20: EVENTS SUBSEQUENT TO REPORTING DATE

There has been no matter or circumstance, which has arisen since 30 June 2015 that has significantly affected or may significantly affect:

- (a) the operations, in financial years subsequent to 30 June 2015, of the company, or
- (b) the results of those operations, or
- (c) the state of affairs, in financial years subsequent to 30 June 2015, of the company.

## NOTE 21: COMPANY DETAILS

The principal place of business of the company is:

Level 2, 280 Coward St  
MASCOT NSW 2020

# DIRECTORS' DECLARATION

The directors have determined that the company is not a reporting entity and that this special purpose financial report should be prepared in accordance with the accounting policies outlined in Note 1 to the financial statements.

**The directors of the company declare that:**

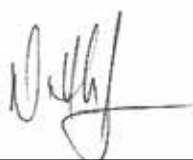

1. The financial statements and notes, as set out on pages 56 - 66, are in accordance with the Corporations Act 2001: and
  - (a) comply with accounting standards in Australia as detailed in Note 1 to the financial statements and the Corporations Regulations 2001; and
  - (b) give a true and fair view of the financial position as at 30 June 2015 and performance for the year ended on that date of the company in accordance with the accounting policies described in Note 1 to the financial statements.
2. In the directors' opinion there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

**This declaration is made in accordance with a resolution of the Board of Directors.**

---

**Director: Malcolm Speed AO**

---

**Director: Mathew Dever**

**Dated this      6 Day of November      2015**

# INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF AUSTRALIAN CYCLING LIMITED

We have audited the accompanying financial report, being a special purpose financial report of Cycling Australia Limited, which comprises the statement of financial position as at 30 June 2015, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

## DIRECTORS' RESPONSIBILITY FOR THE FINANCIAL REPORT

---

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view and have determined that the basis of preparation described in Note 1 to the financial report is appropriate to meet the requirements of the Corporations Act 2001 and to meet the needs of the members.

The directors' responsibility also includes such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

## AUDITOR'S RESPONSIBILITY

---

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's

judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the company's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## INDEPENDENCE

---

In conducting our audit, we have complied with the independence requirements of the Corporations Act 2001.

## OPINION

---

In our opinion, the financial report of Cycling Australia Limited is in accordance with the Corporations Act 2001, including:

- (a) giving a true and fair view of the company's financial position as at 30 June 2015 and of its performance for the year ended on that date; and
- (b) complying with Australian accounting standards to the extent described in Note 1 and the Corporations Regulations 2001.

## **BASIS OF ACCOUNTING**

---

Without modifying our opinion, we draw attention to Note 1 to the financial report, which describes the basis of accounting. The financial report has been prepared for the purpose of fulfilling the directors' financial reporting responsibilities under the Corporations Act 2001. As a result, the financial report may not be suitable for another purpose.

## **EMPHASIS OF MATTER**

---

In forming our opinion, which is not qualified, we have considered the adequacy of the disclosures made in note 1(b) to the financial report concerning the company's ability to continue as a going concern. As at 30 June 2015 the company's current liabilities exceeded its current assets by \$1,053,341. These conditions, along with the other matters explained in note 1(b) to the financial report, indicate the existence of a material uncertainty which may cast doubt about the company's ability to continue as a going concern. The financial statements do not include the adjustments to the carrying value of assets and liabilities that would result if the company was unable to continue as a going concern.

Insurance	AON
Solicitors	Lander & Rogers
Bank	Commonwealth

# COMMISSIONS

The board of Cycling Australia (CA) has been considering the role of the commissions, given the changes to the governance structure.

The commissions have an important role to play in cycling and have been critical in providing support to CA as the national body, as, no doubt, state and territory commissions have been in providing support to the state and territory organisations.

We see commissions as having an important role to play going forward.

**We acknowledge the contribution of the following commission members:**

## ROAD COMMISSION

Chairman	Jon Leighton
Member	John Craven
Member	Rik Fulcher
Member	Kipp Kaufmann
Member	Stuart Shaw
Coach	David Sanders
Coordinator	Sean Muir

## COACHING COMMISSION

Member	John Armstrong
Member	Ben Cook
Member	Kim Palmer
Member	Donna Rae-Szalinski
Member	Sharon Willoughby
Nat Perf Dir	Kevin Tabotta

## MASTERS COMMISSION

Member	Peter Barnard
Member	Stuart Campbell
Member	Mike O'Reilly
Member	Billy Wright
