PRESIDENT'S MESSAGE

YEAR IN FOCUS

This is my sixth annual report to you as President.

YOUR SPORT

The choice of where to ride, what to ride, and whether it is for fun with your mates or at an organized event

or race, continues to be great for Mountain Bikers in Australia. We all celebrate the achievements of our best mountain bikers, but it is the everyday riding that we all do that is special and that MTBA will continue to service for you.

There have been questions raised throughout the year about whether racing is 'dying' in Australia. MTBA monitors race entries and analysis shows that the total number of people entering events is growing at about 11% per year – but that entries per event are dropping. Put simply, the rate of growth in events is greater than the rate of growth of people doing events. We have seen many new events appear on the scene, including the growth in Gravity Enduro and Cyclocross. One reason that numbers per-event are dropping is that there is now so much choice for mountain bikers. On any weekend you can probably find three events within easy distance, so the need to congregate at one big event is less. We have also seen the end of some long-established events too. These are market place corrections and our sport will stabilise, as it always has, in a new form which continues to provide the excitement and challenges that are mountain biking.

One challenge for MTBA in this area is to ensure that your clubs continue to succeed in this environment. Your clubs are important as a focus for the sport and to conduct many of the development activities important for our future riders. To survive, your clubs need your support. Club activities include specific areas such as Junior Development, Women's Programs and Schools Events. (The ACT Schools Championships this year had 547 riders from 37 schools.) MTBA is working to improve support to clubs by providing guides and other documentation to assist their regular activities. We have also created two staff positions in MTBA for Development and these are taking up some of the load from the clubs.

The increased involvement of commercial entities in mountain biking shows that our sport is growing and that businesses see opportunities. Governments are also becoming more involved as they have increased their support for adventure tourism. Our National XC Marathon Championships were held in Derby, Tasmania, in 2015 and are a perfect example of Government investment in mountain biking – and how it can pay off in the rejuvenation of a town and the surrounding areas.

When I look back several years, there have never been as many clubs, private promoters and professional trail building companies in Australia as there are now. The same goes for the number of events and other riding opportunities for you all. I am proud that MTBA has been able to lay the solid foundation on which all these endeavours have been built. I see MTBA's role as an enabler in these areas continuing into the future.

Your National Series has expanded to cover a whole new range of disciplines. MTBA conducted a round of a National Series in every State and Territory in Australia – the first time we have done so. This provides riders of all skill levels with the opportunity to participate in national competition and it brings our sport to all of Australia. MTBA also ran our first National Gravity Enduro Championships in Cairns, based out of Palm Cove, with Chris Panozzo and Em Parkes crowned our inaugural national champions – Em's 3rd national champions' jersey for 2015!

THE INTERNATIONAL STAGE

National and international achievement represents a very small portion of the activity of MTBA, and of you as mountain bikers. However it is what gets us visibility with Governments and ultimately our international performances affect the level of Government support we receive to run other programs for you. And, let's face it, we all love it when our riders do well on the international stage.

Oceania Championships. Held in Toowoomba in 2015, this was a great event and showcased the best regional riders. These alternate between Australia and New Zealand, although it would be great to be able to have other Oceania Nations as a location in future. We are going back to the Toowoomba region in early 2016 for a national series round.

World Cups. A large number of Aussies took part in the circuit this year, with some very good results happening along the way, along with some valuable lessons and development opportunities. MTBA invested in supporting some riders on the World Cup circuit, as a means of improving our national ranking leading up to the 2016 Olympic Games in Rio. Our Downhillers led the way with series rankings, with Troy Brosnan 3rd and Tracey Hannah 4th in the Elites, and Andrew Crimmins 2nd in the Juniors. Dan McConnell 14th and Bec Henderson 25th were our highest ranked Elite XCO riders, having peaked early in the season to ensure Olympic selection.

UCI World Champs. Our team returned home from Andorra with Janine Jungfels as the World Champion in Observed Trials, with Tracey Hannah (Elite Women) and Jackson Frew (Junior Men) our Bronze Medalists in the Downhill. We had 3 Aussies in the top 10 of the Elite Men Downhill with Troy Brosnan best placed at 6th. Janine is Australia's only Trials medallist and this win was a great reward for her hard work since taking bronze a couple of years ago. Em Parkes placed 9th in the Elite Women XC Eliminator. The performance of our team is a good indication of future potential at the World Championships and I am confident in some great results at Cairns. I would particularly like to thank Peter Dowse and the staff for their work with the Australian Team.

World Masters MTB Championships. Held the week before the UCI World Championships, and in the same location, this event saw Craig Peacock 4th, Donnal Dall 5th, Karen Evans 5th and Brad Clarke 16th in their age-groups. Great results for Australia.

Enduro World Series. Jared Graves continues to stamp his class and authority in Gravity Enduro with a win in the final round. Jared was on the podium in two other rounds and was never outside the top-10 in the races he entered. This style of event is increasing in popularity and it provides a good mix of exciting racing plus the opportunity for rider interaction.

Tour de Timor. An interesting and challenging Stage Race held by our northern neighbor who are still developing their mountain biking. Aussies Craig Cooke won the men's title after coming back strong on the final day with Gina Ricardo placed second in the women's race, behind Portugal's Celine Carpinheiro.

World Solo 24Hr Championships. Jason English took the Elite Men's win at WEMBO 2015 in Weaverville, California to claim his 6th successive world championships. He is now the equal record holder for the greatest number of World Solo 24Hr MTB Championships. Kate Penglase was on the podium with 4th in Elite Women. Other Australian winners were; Peter Arch in 23-29 Men and Scott Nicholas in Men's Single Speed (with Brett Bellchambers 2nd).

PRESIDENT'S MESSAGE

YEAR IN FOCUS

YOUR MTBA

MTBA is in a sound financial position and well placed to meet the future challenges of our sport. We continue to work with the Australian Sports Commission to achieve National Sporting Organisation status, which will provide additional support to us.

We have moved our offices to the Gold Coast and will be established there ready for our 2015 AGM. This move was caused, to some extent, by the closure of the Sydney Cycling Australia offices where MTBA has operated for several years. The move to the Gold Coast is a lot more than just an office re-location. We are partnering with Bond University to provide sports science and research opportunities for our athletes and we will establish a Centre of Excellence for Mountain Biking there. With close proximity to trails and the accommodation options at the University, it is an ideal place for development camps and, of course, a great base for the 2018 Commonwealth Games.

This move also allows us to provide more services to members – as we will be using dedicated staff to do so.

You will have seen that MTBA has created our own sporting awards and these were first presented at the 2015 National Championships in Bright, VIC. This allows us to recognize the whole range of disciplines in our sport and reward our best performers, and those who support them.

PERFORMANCE ENHANCING DRUG USE

Many Australian sporting codes continue to be under the spotlight on this issue. I first communicated my views to you on this subject in 2012 when MTBA took action in advance of the reviews and investigations which began that year. The MTBA Constitution requires the leadership and management of MTBA to be drug-free, past and present, and to declare this when they stand for election or sign employment agreements. I will continue to promote mountain biking as a drug-free sport and I personally take a very strong position on this issue.

We have recently seen the announcement of an international mountain biker (Blaza Klemencic) testing positive for EPO, and we should never underestimate the effect that these cheats can have on the clean riders in our sport – by denying them placings and careers.

WHAT IS ON THE HORIZON FOR MTBA

The Australian national cycling body, Cycling Australia, has a new Board and Management. The formation of a single unified Australian cycling body is still delayed by the issues that CA had to deal with, and I expect discussions to re-commence soon. It remains my opinion that a new unified cycling body represents the greatest potential for improving our sport. But I will not be recommending it to you unless the interests of mountain biking are fully addressed and ultimately integration will not happen unless you vote in favour of it. We are also working to move MTBA to becoming a Company Limited by Guarantee. Again, this will not happen unless the members vote in favour of it, but it will place MTBA in a better position when negotiating with State and Federal bodies on your behalf.

MTBA is not just about racing and it's not just about elite riders. We have to ensure that MTBA is relevant to all mountain bikers in Australia. We have provided added benefits to members during the year and we will work to improve the value that MTBA Membership offers.

With the increase in commercial mountain biking, I see MTBA expanding to take on more of a national accreditation and standards function. You need to be confident that the events you enter, and the activities you do, are well run and safe.

MTBA would not be possible without the tireless dedication of our members and volunteers at all levels of the sport. That is where the foundation of our future is laid. I have had the great opportunity over the past six years to talk with our members and potential members. From being present at our National Championships, school events through to club social rides, I have received your feedback personally on what you think MTBA can do differently, plus much more by email. Please continue to do that and never underestimate the value I place on your comments.

Finally I would like to thank all of MTBA – our members, the staff and the Management Committee for their assistance in what has been achieved in the last 12 months, and planned for our future. The MTBA Committee includes a range of people with professional skills who volunteer their time and energy to mountain biking. Thank you.

I wish you all a very successful 2016, on and off the bike.

RUSS BAKER AM
President

CEO'S REPORT

The 2014/15 year is the first full 12 months I have had in the role since I joined MTBA as CEO and from my perspective it's been an incredible experience.

It was a year of significant changes in nearly every area

of the organisation. New staff, new programs and activities, an expanded number of events, rebuilding of some past principles and development of some new frameworks and foundations for the future growth and development of the sport, just to name a few!

Some of the highlights for the 2014/15 year were;

Preliminary development of a new rider development pathway that incorporated a series of very successful Junior Development Camps conducted through all States and Territories along with the introduction of an U17 Junior Development Squad. The U17 Junior Development Squad in future year's is planned to expand to a State based program rather than function as a National squad.

Membership numbers continued to grow at approximately 5.5% from the previous year. Whilst growth remains healthy, it has slowed from previous years, especially with a downturn in junior member numbers. Recreation membership grew significantly recording over 25% increase for the year. From a gender perspective, women make up approximately 14% of membership, yet general cycling statistics indicate well over 45% of the population who ride bikes are women. Attracting women to join MTBA remains a significant objective for our organisation into the future.

MTBA introduced a Free Trial membership program, offering people who have not been a member of MTBA in the past three years to join as members and participate in events without the need to buy a day licence for a period of eight weeks. The program also facilitates the opportunity for new members and local MTB clubs in their area to make contact through an information sharing notification system. Throughout the year, over 8,000 people took up the free trial membership offer, with over 15% signing on as full members following their trial period.

Numerous improved benefits were secured and added to our members insurance benefits during 2014-15, including offering Race members coverage in all MTB events (regardless of MTBA sanctioning), and the ability for Recreation members to join MTBA direct outside the Club network. This last initiative has been introduced in an effort to attract MTB riders from within the 4 million people who ride a bike each year to join the organisation, where joining a Club might be restricting membership opportunities. Into the future, MTBA are looking to introduce further member benefits including bike insurance, family discounts and other extended insurance benefits.

A number of Level 1 NCAS Coaches courses were conducted throughout the country during the year with significant success as our overall number of accredited coaches increased. MTBA and the general MTB community is receiving great benefits as coaches now attend and utilise MTBA's very successful junior development camps as part of the coach education/development process.

MTBA are very close, following a considerable consultation and development process, to implement a new Skill's Instructor's program, which is designed to educate participants in general teaching of MTB Skills that will also come with NCAS accreditation for insurance coverage purposes. This new program is designed specifically for those wishing to teach skills as opposed to coaching and will provide a very positive and beneficial addition to our current MTB education programs.

Our current online accreditation program for Level 1 commissaires remains extremely well-supported and is seeing an increased number of commissaires introduced throughout our affiliated Club networks and wider MTB community. During the year, a Level 2 course was successfully conducted, however now pressure is on to introduce and conduct commissaire accreditation courses at the higher levels. These courses will become a focus of attention during the upcoming year.

From what I understand to be a first, MTBA conducted a National level event in every State and Territory throughout the year, including events from our National Series, XCM National Series, Cyclocross and Gravity Enduro National Series.

MTBA ventured back into the coordination of an XCM National Series, in partnership with a variety of

MTB Clubs and well established private promoter events. Whilst a new venture, the series has been successful overall and provides a very healthy and solid platform for the future development of this highly supported series.

MTBA for the first time ventured into and established an internationally and nationally recognised Gravity Enduro National Series and National Championship for this very exciting and popular discipline.

Following Cycling Australia's decision to withdraw from coordinating Cyclocross, MTBA took responsibility for the discipline, during what was overall a successful season, but a season that came with many challenges and transitions by all parties for the future.

MTBA took a new direction in trails advocacy, providing more direction in assisting our member clubs and landowners with their planning, strategic development and facilitation of advocacy opportunities between local clubs, councils and landowners. Facilitating the establishment and introduction of an Australian MTB Trails Standards & Guidelines remains a significant objective for MTBA into the future.

MTBA contributed to the Australian Sports Commission/ State Cycling Bodies recapitalisation loan that was provided to Cycling Australia to aid its financial restructure and recovery from past financial difficulties. This decision by MTBA was made to strengthen and reflect our commitment to preserving Cycling Australia and the relationship that MTBA shares with them.

The MTBA website has been a project that has received significant planning and redevelopment activities behind the scenes and during the early part of the next year. One key feature of the new website is the introduction of a "Community" section which will provide an interactive information sharing portal that can be contributed to by elements of the MTB community. MTBA have been very active in the social media space, and we have had a significant increase in our followers on FaceBook to now over 18,000.

MTBA were very excited to release a new online events calendar over the past year. This calendar has been developed to provide coverage of all MTB events conducted during the year and includes significant filters to aid users find events.

Stage 1 links back to our RegisterNow system as well as accepts direct event registrations and can link directly to event registration pages. The calendar is mobile-friendly and we are driving it to become a major source of MTB events for riders throughout the country. Stage 2 will incorporate users being able to create a profile and receive alerts when suitable matching events are added to the calendar. Stage 2 is anticipated to be developed in the upcoming year.

During the course of the past year, MTBA have made improvements in relationships with numerous sources, including media outlets, suppliers, landowners, government and supporter networks. MTBA is continually working to further develop these relationships and build on them into the future for the benefit of our sport. One key stakeholder relationship that has undertaken major improvement over the past 12 months is our relationship with New Zealand MTB. I am pleased to advise our two organisations are working together on a number of improved cooperative activities and events, such as upcoming shared training camps and a Trans-Tasman Schools MTB Cup in April, 2016.

During the year, MTBA benefited from some fantastic staff working for us, including some new additions, whilst also losing some colleagues as they chose to pursue new opportunities. Staff can often be the unsung or simply expected contributors to an organisation, but without the passion that all current and past MTBA staff have had for the organisation and the sport, I simply do not think the dynamic and significant changes and improvements that have occurred during the past 12 months would have been possible.

Numerous international successes and results were achieved by numerous Australian athletes throughout all disciplines of MTB. However, it is fair to say that whilst as a country we have achieved some terrific results in some disciplines, Australia does have some considerable work to do in order to rebuild our rider base to maintain our competitiveness on the international stage in some of the other disciplines. This process can take time, and requires a strong framework and foundation that provides opportunities all the way along the path that includes talent identification, coaching, athlete support, sports science and testing, as well as financial support mechanisms.

CEO'S REPORT

MTB in Australia does suffer from a lack of funding for the development of the sport across all areas. This is an area that I personally wish to change with the support of the MTB community. MTB is one of only a handful of sports that has representation in both Olympic and Commonwealth Games, but receives no direct Federal Government funding. It is public knowledge that our cycling colleagues in road, track and BMX all receive significant direct Participation and High Performance funding from the Australian Sports Commission and Australian Institute of Sport. This situation places significant pressure on MTBA and potentially penalises the growth and development of the sport in Australia. It could easily be argued that this lack of direct financial aid to MTB is a major contributor in the current shortage of riders and performances we are currently experiencing in XCO.

Subsequently, MTBA is challenged with finding creative ways to develop and provide opportunities and support for our future riders and in a new initiative for 2015/16, we intend to open our doors to potential supporters of this great sport that would like to contribute towards the development of MTBA-HP program.

MTBA also introduced a new High Performance grants program during the year to help our aspiring riders undertake their international activities and compete in events overseas. Approximately 24 riders received support during the year and provides nearly \$50,000 in total support.

In a step towards improved independent recognition from the Australian Sports Commission and with support from Cycling Australia, MTBA was provided with a Sports Sustainability & Development Grant very late in the year. This grant was the result of constant lobbying of the ASC for support. We hope this opportunity and recognition will continue to open doors to much needed support equal to other NSO's as we work hard to grow and develop our organisation and MTB throughout the country including our commitment to international representation.

At the end of the financial year our Mascot office was closed for apartment redevelopment. Cycling Australia decided to consolidate their Sydney office into their Melbourne based office. MTBA subsequently, needing a new home, followed up on some initial interest from the Gold Coast City Council and have since secured a support package from the Council, and a significantly positive developing partnership with Bond University to help us grow and develop the Sport.

Many people need to be acknowledged for the contributions they make on a regular basis to this great sport; this list encompasses all levels from volunteers and officials at club level, parents who transport their children to MTB activities, coaches and skills instructors, trail builders, sponsors and supporters, Governments, councils and landowners, commissaires, right through to MTBA staff and Management Committee members and all in-between. MTB as a pastime doesn't require much, but as a sport it requires significant contributions and without this support and assistance, MTB would not have grown as it has within the country and everyone who has contributed, even in a very small way, should be very proud of what you have helped create.

I look forward to another 12 months of wonderful opportunities and outcomes for MTBA and the sport of MTB in Australia.

SHANE COPPIN
Chief Executive Officer

SECRETARY'S REPORT

Continuing to evolve MTBA to be a relevant representative organisation for all mountain bikers is of prime importance.

Since I joined the committee at the November 2014 AGM, there has been an enormous amount to learn about the breadth and scope of what MTBA actually does. As a recreational rider, a weekend race warrior on the local club scene, the women's rep for my local cycle club and mother of the Australian U23 female champion, I did not realise the effort that is put into the administration of the sport by the staff, unpaid committee members and volunteers who keep events, finances and sport development ticking over for the benefit of members.

MTBA is a small association attempting to cover a significant number of events across Australia whilst supporting juniors, women, weekend warriors and high performance athletes. In addition, MTBA covers development, cyclocross, marathon, XCO, XCE, observed trials, downhill and all the services required to run the sport such as policy review, insurance, rider support and

more across a massive geographical area. I would like to thank my fellow Committee members for their support, and our CEO, Shane Coppin, for steering his small team of enthusiastic staff through the many challenges that such a broad sport offers. I also thank President Russ Baker for not just his photographic prowess but his vast knowledge and incredible devotion to the sport.

My intention over the coming period is to ensure a focus remains on introducing more females to this great sport and to promote more club activities that benefit the vast majority of our membership, recreational riders and weekend warriors.

The record of Committee meetings and attendance for MTBA for the financial year 2014/15 is shown on the following page.

HELEN PARKES
Secretary

MEETING ATTENDANCE 2014/15

The committee meet on a regular basis. Most meetings are held via phone conference with quarterly meetings held face to face.

		Russell Baker - President	Jodie Willett - Vice President (Resigned 2/12/14)	Richard Ovesen - Vice President (Appointed 7/4/15)	Phil McCorkill - Treasurer (Resigned Dec 2014)	Peter McKendry - Treasurer (Appointed 2/12/14)	David Rusden - Secretary (Retired 22/11/14)	Helen Parkes - Secretary (Appointed 22/11/14)	Anthony Willis - Public Officer (Resigned 7/4/15)	Matt Battye - Public Officer (Appointed 7/4/15)	Craig Peacock (Appointed Professional 1)	Katherine O'Shea (Appointed Professional 2)	Tim Rowe - Cross Country Rider Representative	Shane Currie - Gravity Rider Rep	Owen Gwilliam - Oberseved Trials Rider Rep

TREASURER'S REPORT

The revenue for MTBA grew by 22.5% from \$1.87M to \$2.29M with growth coming from membership, grants and hosting fees.

In line with strategic plan for 2014 to 2017 MTBA continues to spend in developing events, development of elite riders, training of event officials and support of developmental programs for riders. MTBA financial results were a net loss of \$152K reducing equity from \$361K to \$34K. A Grant was received in June 2015 for \$120K which is surplus to the 2015-2016 Budget and consequently will increase the equity to \$154K as at 1st July 2015. In response to declining equity position, MTBA has currently enacted a renewed focus on control of operational costs and the development of membership opportunities for riders. The MTBA 2014 to 2017 strategic plan remains the core of the Budget development for 2016.

The key accounting change adopted during the year was the introduction of accrual accounting rather than cash accounting. This had the effect of bring forward costs

into the 2015 financial year as a one off adjustment. This expected to allow MTBA to maintain a positive outcome for the 2016 year, with the goal being a modest surplus of \$60K. Per the strategic plan for 2014-2017, the following 2017 year is expected to see a rebuilding of equity to better serve MTBA next strategic development for 2018-2021.

The significant event affecting the 2015 financial year was beginning of the establishment of MTBA's own financial and administration team which will continue to be developed into the 2016 financial year. Cycling Australia has announced its move to Victoria and MTBA has consequently decided to move its head office operations to the Gold Coast in Bond University premises which will be completed by November 2015. MTBA will take responsibility for all accounting functions and is looking forward a positive 2015-2016 financial year.

PETER MCKENDRY
Treasurer

FINANCIAL **REPORT**

FOR THE YEAR ENDED 30 JUNE 2015

COMMITTEES' REPORT	16
FINANCIAL REPORT	
Statement of comprehensive income	17
Statement of financial position	18
Notes to financial statements	19 - 24
STATEMENT BY MEMBERS OF THE COMMITTEE	24
INDEPENDENT AUDITOR'S REPORT	25

COMMITTEES' REPORT

The committee members present their report together with the financial report of Mountain Bike Australia Inc. (the Association) for the year ended 30 June 2015 and auditor's report thereon.

COMMITTEE MEMBERS NAMES

The names of the committee members in office at any time during or since the end of the year are:

Russell Baker AM - President

Richard Ovesen - Vice President (Appointed April 2015)

Jodie Willett - Vice President (Resigned December 2014)

David Rusden - Secretary (Resigned November 2014)

Helen Parkes - Secretary (Appointed November 2014)

Phillip McCorkell - Treasurer (Resigned December 2014)

Peter McKendry - Treasurer (Appointed December 2014)

Katherine O'Shea - Professional Representative

Craig Peacock - Professional Representative

Matt Battye - Public Officer (Appointed April 2015)

Anthony Willis - Public Officer (Resigned April 2015)

Shane Currie - Gravity Representative

Owen GWilliam - Observed Trials Representative

Tim Rowe - XC Representative

The committee members have been in office since the start of the year to the date of this report unless otherwise stated.

RESULTS

The deficit for the association for the year after providing for income tax amounted to \$151,845.

REVIEW OF OPERATIONS

The association continued to engage in its principal activity, the results of which are disclosed in the attached financial statements.

The net assets of the association decreased from \$361,349 to \$209,504 during the financial year.

SIGNIFICANT CHANGES IN STATE OF AFFAIRS

There were no significant changes in the association's state of affairs that occurred during the financial year, other than those referred to elsewhere in this report.

PRINCIPAL ACTIVITIES

The principal activity of the association during the year was to lead the development and promotion of mountain biking in Australia for the benefit and enjoyment of all mountain bikers.

Signed on behalf of the members of the committee.

Russell Baker AM - President

Peter McKendry - Treasurer

Dated this Tenth day of November 2015

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2015

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

This financial report is a special purpose financial report prepared in order to satisfy the financial report preparation requirements of the Associations Incorporation Act 1991. The committee has determined that the association is not a reporting entity. Mountain Bike Australia Inc. is a not-for-profit entity for the purpose of preparing the financial statements.

The financial report has been prepared on an accruals basis and is based on historic costs, which do not take into account changing money values or, except where specifically stated, current valuations of non-current assets.

The financial report was approved by the committee as at the date of the committees' report.

The following specific accounting policies, which are consistent with the previous period unless otherwise stated, have been adopted in the preparation of this report:

(a) Revenue

Revenue from sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer and the costs incurred or to be incurred in respect of the transaction can be measured reliably. Risks and rewards of ownership are considered passed to the buyer at the time of delivery of the goods to the customer.

Revenue from the rendering of services is recognised upon the delivery of the service to the customers.

Revenue from organising and hosting events is recognised in the period in which the events are held.

Sponsorship revenue is recognised on an accruals basis in accordance with the sponsorship agreement.

Interest revenue is recognised when it becomes receivable on a proportional basis taking into account the interest rates applicable to the financial assets.

Levies and course and camp fees are recognised upon the invoice being issued.

Annual membership fees, entry fees, licenses and permits and other revenue are recognised when payment is received. Three year membership fees are recognised as revenue over the period of the membership.

All revenue is stated net of the amount of goods and services tax (GST).

(b) Contributions - Government Grants and Donations

When the entity receives grants but is obliged to give directly approximately equal value to the contributor, recognition of grant income will be deferred until the delivery of service.

(c) Cash and cash equivalents

Cash and cash equivalents include cash on hand and at banks, short-term deposits with an original maturity of three months or less held at call with financial institutions, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the statement of financial position.

(d) Inventories

Inventories held for sale are measured at the lower of cost and net realisable value.

(e) Property, plant and equipment

Each class of plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and any accumulated impairment losses.

Plant and equipment

Plant and equipment is measured on the cost basis.

Depreciation

The depreciable amount of all property, plant and equipment is depreciated over their estimated useful lives commencing from the time the asset is held ready for use. Land and the land component of any class of property, plant and equipment is not depreciated.

(f) Intangibles

Website costs

Website costs are recognised at cost. They are amortised over their estimated useful lives of 4 years. Website costs are carried at cost less accumulated amortisation and any impairment losses.

(f) Impairment of non-financial assets

An impairment loss is recognised where the carrying amount of the asset exceeds its recoverable amount. The recoverable amount of an asset is defined as the higher of its fair value less costs to sell and value in use.

The recoverable amount is assessed on the basis of the expected net cash flows which will be received from the assets employment and subsequent disposal.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2015

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

(h) Provisions

Provisions are recognised when the association has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

(i) Leases

Leases are classified at their inception as either operating or finance leases based on the economic substance of the agreement so as to reflect the risks and benefits incidental to ownership.

OPERATING LEASES

Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are recognised as an expense on a straight-line basis over the term of the lease.

Lease incentives received under operating leases are recognised as a liability and amortised on a straightline basis over the life of the lease term.

(j) Employee benefits

(i) Short term employee benefit obligations

Liabilities arising in respect of wages and salaries, annual leave and any other employee benefits expected to be settled within twelve months of the reporting date are measured at their nominal amounts based on remuneration rates which are expected to be paid when the liability is settled. The expected cost of shortterm employee benefits in the form of compensated absences such as annual leave is recognised in the provision for employee benefits. All other short-term employee benefit obligations are presented as payables.

(ii) Long term employee benefit obligations

Liabilities arising in respect of long service leave and annual leave which is not expected to be settled within twelve months of the reporting date are measured at the present value of the estimated future cash outflow to be made in respect of services provided by employees up to the reporting date.

Employee benefit obligations are presented as current liabilities if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting date, regardless of when the actual settlement is expected to occur.

(k) Goods and services tax (GST)

Revenues, expenses and purchased assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

(l) Comparatives

Where necessary, comparative information has been reclassified and repositioned for consistency with current year disclosures.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2015

NOTE 15: EVENTS SUBSEQUENT TO REPORTING DATE

There has been no matter or circumstance, which has arisen since 30 June 2015 that has significantly affected or may significantly affect:

- (a) the operations, in financial years subsequent to 30 June 2015, of the association, or
- (b) the results of those operations, or
- (c) the state of affairs, in financial years subsequent to 30 June 2015, of the association.

NOTE 16: ASSOCIATION DETAILS

The principal place of business of the association is: Level 2, 280 Coward St MASCOT NSW 2020

STATEMENT BY MEMBERS OF THE COMMITTEE

The committee has determined that the Association is not a reporting entity and that this special purpose financial report should be prepared in accordance with the accounting policies outlined in Note 1 to the financial statements.

In the opinion of the committee the financial report as set out on pages 17 - 24:

1. Presents fairly the financial position of Mountain Bike Australia Inc. as at 30 June 2015 and performance for the year ended on that date.
2. At the date of this statement, there are reasonable grounds to believe that Mountain Bike Australia Inc. will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the committee and is signed for and on behalf of the committee by:

Russell Baker AM - President

Peter McKendry - Treasurer

Dated this Tenth day of November 2015

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF MOUNTAIN BIKE AUSTRALIA INC.

We have audited the accompanying financial report, being a special purpose financial report, of Mountain Bike Australia Inc. (the Association), which comprises the statement of financial position as at 30 June 2015 and the statement of profit or loss and comprehensive income for the year then ended, notes comprising income of significant accounting policies and other explanatory information, and the governing committee's declaration.

RESPONSIBILITY OF THOSE CHARGED WITH GOVERNANCE

The committee is responsible for the preparation and fair presentation of the financial report and has determined that the basis of preparation described in Note 1 to the financial report is appropriate to meet the requirements of the Associations Incorporation Act 1991 (ACT) and financial reporting needs of the members.

The committee's responsibility also includes such internal control as the governing committee determine is necessary to enable the preparation and fair presentation of a financial report that is free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Association's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Association's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by those

charged with governance, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

INDEPENDENCE

In conducting our audit, we have complied with APES 110 Code of Ethics for Professional Accountants.

OPINION

In our opinion, except for the possible effects of the matter described in the Basis for Qualified Opinion paragraph, the financial report of Mountain Bike Australia Inc. as at 30 June 2015 is properly drawn up in accordance with the Associations Incorporation Act 1991:

- (i) so as to give a true and fair view of matters required by section 72 (2) to be dealt with in the financial statements;
- (ii) in accordance with the provisions of this Act; and
- (iii) in accordance with proper accounting standards.

BASIS OF ACCOUNTING

Without modifying our opinion, we draw attention to Note 1 in the financial report, which describes the basis of accounting. The financial report has been prepared to assist Mountain Bike Australia Inc. to meet the requirements of the Associations Incorporation Act 1991 (ACT) and the financial reporting needs of the members as determined by the governing committee. As a result, the financial report may not be suitable for another purpose.

SYDNEY

2015 JAYCO CYCLIST OF THE YEAR AWARDS

MOUNTAIN BIKE NOMINEES

Congratulations to our 2015 Jayco Cyclist of the Year Mountain Bike award nominees. Winners will be announced at the awards function on 13 November in Melbourne. Riders nominated in each category and their 2015 performance highlights are listed below.

AWARD CATEGORY: MALE MTB CYCLIST NOMINEES:

Troy Brosnan

3rd in UCI Downhill World Cup Series

6th in UCI Downhill World Championships

Australian Elite Men Downhill Champion

Jason English

World Solo 24 Hour Mountain Bike Champion

Australian Solo 24 Hour Mountain Bike Champion

A world record equalling 6th World Championship title

Jared Graves

One win in Enduro World Series

Three podiums in Enduro World Series

Never finished outside the Top – 10 in Enduro World Series

AWARD CATEGORY: FEMALE MTB CYCLIST NOMINEES:

Janine Jungfels

UCI Observed Trials World Champion

Winner Antwerp Observed Trials World Cup

Finished 2nd overall in UCI Observed Trials World Cup Series

Australian Observed Trials Champion

Tracey Hannah

Bronze medal Elite Women Downhill World Championships

4th Overall in UCI Women Downhill World Cup Series

Australian Elite Women Downhill Champion

Emily Parkes

9th in 2015 World Championships Cross Country Eliminator (XCE) (competing against the Elite Women)

Australian U23 Women Cross Country Olympic (XCO) Champion

Australian Elite Women Cross Country Eliminator (XCE) Champion (competing against the Elite Women)

**AWARD CATEGORY:
JUNIOR MALE MTB CYCLIST**

NOMINEES:

Jackson Frew

Bronze medal UCI World Championships Junior Downhill

4th Overall in World Cup Junior Downhill Series

4th Australian Championships Junior Downhill

Andrew Crimmins

2nd Overall in World Cup Junior Downhill Series

Won two World Cups in Junior Downhill

Australian Junior Downhill Champion

Max Warshawsky

9th UCI World Championship Junior Downhill

Bronze medal in Australian Championships Junior Downhill

**AWARD CATEGORY:
JUNIOR FEMALE MTB CYCLIST**

NOMINEES:

Megan Williams

34th Cross Country Olympic (XCO) World Championships

Australian Junior Cross Country Olympic (XCO) Champion

Ebony Tanzen

2nd Australian Junior Cross Country Olympic (XCO) Championships

Ellie Wale

6th UCI World Championship Junior Downhill

Australian Junior Downhill Champion

**AWARD CATEGORY:
MALE MASTERS MTB CYCLIST**

NOMINEES:

Peter Selkrig

2nd World Solo 24 Hour Championships 50-54 age category

Brad Clarke

16th World Masters Championships Cross Country Olympic (XCO) 35-39 age category

Australian Champion Cross Country Olympic (XCO) Masters 1-2 Men

Craig Peacock

4th World Masters Championships Cross Country Olympic (XCO) 55-59 age category

4th in Australian Championships Cross Country Olympic (XCO) Masters 5-6 Men

**AWARD CATEGORY:
FEMALE MASTERS MTB CYCLIST**

NOMINEES:

Karen Evans

5th World Masters Championships Cross Country Olympic (XCO) 45-49 age category

Australian Champion Cross Country Olympic (XCO) Master 3-4 Women

Sharon Heap

Australian Champion Cross Country Olympic (XCO) Masters 5+ Women

Donna Dall

5th World Masters Championships Cross Country Olympic (XCO) 40-44 age category

2nd Australian Championships Cross Country Olympic (XCO) Masters 3-4 Women

ACT

REPRESENTATIVE REPORT

Mountain Biking in the ACT has continued to grow in 2015. Races for the 'traditional' codes of XC and DH were well attended, but the new codes of Cyclocross and Enduro not only gave riders more variety, they attracted new riders to races, indicating the changing desires of the market. The challenge for CORC is to adjust the calendar for the market.

As riding changed, so has access to trails. CORC has supported the establishment of a new trail network at Pine Island in Tuggeranong under the custodianship of the Tuggeranong Trail Rats and the reestablishment of the trail network in Majura Pines, under the custodianship of the Majura Pines Trail Alliance. Bruce Ridge is close to being finalised and formalised, thanks to the hard work of the Friends of Bruce Ridge. In a great show of support for trails, the Kowalski Brothers scored an Volunteering ACT award for their work at Kowen Forest.

CORC continues to work on trail access to a number of old and new areas, hopefully we'll start work in some new trails in new locations once the Scott 24 Hour is done for the year.

The final 'big thing' for 2015 is the release of the ACT Government's 'Mountain Biking in the ACT 2015-2025' strategy. CORC was invited to comment on this strategy and we have provided feedback to the Government. We'll let you all know via our website and Facebook once the Strategy is released for wider community consultation.

BRENDAN MULLOY
ACT Representative

NSW

REPRESENTATIVE REPORT

The NSW MTB scene in 2015 has seen an increasing number of events available to compete in. There seems to be an event every weekend somewhere in the State, and it has been good to see the

EvoCities enduro series being held around regional NSW centres. Between our thriving Clubs and the private promoters, there are events for all styles and tastes.

In 2015 there has been a well-attended State Downhill series – but again no series for Cross Country. With so many other XC races available, holding a financially viable XCO series is problematic.

In the Trails area, we have seen some good advances, with the NPWS completing new MTB trails in the Bantry Bay area of northern Sydney. This has been an important step for NPWS. The Illawarra Mountain Bike Alliance has been a great illustration of how

local groups can bring fantastic proposals forward. It may take a few years to reach fruition, but the result could be of international standard.

There have been a number of Level 1 Coaching courses held in NSW/ACT over the year. This should lead to a great number of Level 1 and Level 2 coaches being available to help juniors and new riders.

In the junior area, NSW has been very successful during 2014 with a number being selected for MTBA Junior Australian teams. The 7th JetBlack NSW All Schools XC Championship was to be held in June, but was postponed due to wet weather. At that time over 230 young riders were registered. It will now be held in late November 2015.

RAY RICE
NSW Representative

QLD REPRESENTATIVE REPORT

As a newer representative to MTBA I will do my best to convey my understanding of the industry in Southern Queensland for use in the MTBA Annual Report.

Trail development has for a long time been a grassroots project with local groups building when permitted on public lands. The southern Queensland community is patiently waiting on a final plan and design in regards to the 2018 Commonwealth Games. Final budget for development of the Nerang Forest is to my knowledge not finalized but have heard that more than one million in trail development will be completed for a UCI legal cross country race course. Many local clubs and groups desire involvement, volunteering labour efforts to complete the project. It is unclear if the Gold Coast Council will contract outside groups or look local for the work.

The official 2015 Cyclocross season was from what I experienced a slow growing community and rooted mostly in Brisbane. I received multiple inquiries from groups north of Brisbane requesting MTBA's

involvement in local and regional race series and feel that MTBA is preferred over other sanctioning groups. These requests were passed onto MTBA's main office for further detailed information and proper process. I feel that this is a good potential in the coming years for MTBA to reach out to these small communities of Cyclocross clubs to build memberships.

2015 has been the year of the mountain bike as far as retail sales go. I've seen more and more interested into bigger travel enduro travel bikes. Sales of 120mm -140mm travel trail bikes are still dominant as most people would consider themselves normal trail riders and are looking for the most versatile bike.

CHUCK GARTRELL
QLD Representative

VICTORIAN

REPRESENTATIVE REPORT

What an amazing year for Mountain Bike and Cyclocross in Victoria.

Australia's first ever mountain bike

summit at Mount Buller commenced a great year for mountain biking in the state.

Approximately 350 delegates from across Australia came to take part in an exciting weekend of trail building, advocacy, and management presentations backed up by mountain bike media representation from electronic to hard copy. The summit direction was to introduce and include all aspects of mountain bike culture past present and future with the focus of bringing together the learnings of many to improve the voice of mountain biking at state and federal government level. Sustainable trail building, event management and media were the strong points of the summit. Included were supported rides down the famous Copperhead and Delatite trail networks. Mountain Bike Australia sponsored delegates to attend the summit to show the new look MTBA and introduce Shane Coppin to the masses. Shane being offered the final presentation to the summit delivered to the delegates a presentation that settled what was anticipated to be a potentially hostile audience. Shane spoke of openness and transparency through a consultative MTBA and presented a vision of the future which immediately showed leadership to the audience.

After recently completing my level 2 mountain bike coach qualification along with Jodie Willett in 2014 the goal for Jodie, Evan and myself was to create an exciting new direction with State based Junior Development Camps. This has been in planning for some years and 2014 marked the start of something big. In Victoria this year I have worked with MTBA to provide a National strategy to introduce as many junior athletes and trainee coaches to structured mountain bike camps. The

success of these camps relied on clubs coaches and athletes all communicating successfully ensuring the development of a sustainable future for mountain biking. The success is represented in the increase of junior memberships and underpinned by the attendance of 90 junior athletes and 27 trainee coaches over 3 Victorian Junior Development Camps this year. The development continues with the trainee coaches becoming qualified and taking the camps structure back to their respective clubs and creating a new level of junior development with clubs reporting junior attendance at skills days numbering up to 80 junior participants on a regular basis. The camps are now being run out nationally under MTBA leadership with NSW, QLD, SA and WA all having delivered at least 1 camp with TAS due to run their first whilst this information goes to print. Exciting times!

Trails and sustainability has been tackled headlong down on the peninsula by Red Hill Riders with their efforts being recognised through local council support to develop a major mountain bike park under the Arthur's Seat Adventure Park vision. (Check the vision and like on FB) This is a fantastic example of club persistence lead by Mark Gardner (RHR president) and the strong RHR Club. Well done Red Hill Riders on a dream becoming true for the peninsula. I asked Mark about the success of the project and how we can use this information for the future with Mark acknowledging Russell Baker as a great sounding board when at times it appeared all too big. Great work Pres! We will watch this development as it continues. There are many new trails networks with applications and consultation processes continuing to be delivered to government departments by Victorian mountain bike clubs seeking understanding and support to build on the mountain bike experience.

Cyclocross was coming and as I type this the last CX event for the Victorian Cyclocross series has been run and won. With record numbers of riders across all fields this season we are faced with the build it and they will come situation. That which commenced with Dirty Deeds CX of past years has exploded across the state with Fields of Joy at Essendon becoming a national benchmark in Cyclocross for 2015. Victoria has hosted 2 rounds of the national CX series and

also hosted through Fields of Joy the National Cyclocross Championships. Rounds of the Victorian Series have also been held for the first time in rural Victoria at Mt Beauty and Oxley where metro moved out of town for the weekend to North East Victoria. This was great to see and I hope it continues into 2016 and beyond.

So where to now? I hear you asking. We will continue to see the expansion of our Victorian trails networks and eagerly await final news about Arthurs Seat and keep our fingers crossed that the gondola with bike racks planned for the Seat will gain some momentum with less opposition making the Peninsula a place of excellence in state, national and international mountain biking.

Junior development will continue to be placed at the forefront of Victoria's sport sustainability plan leading to the possibility of creating a state based team for national championships in 2017 when Victorians are faced with interstate travel to National Championships.

We wait to hear the plans for Cyclocross in 2016/17 where as a state we hold 3 of the 4 internationally recognised medals available at National Cyclocross Championships: Paul Van Der Ploeg (Elite Men), Lisa Jacobs (Elite Women) and Ben Walkerden (Junior Men 19)

The Mountain Bike Australia shift from Sydney to Gold Coast will no doubt be on the mind of many Victorians and I will be working to try and build a strong connection from the Victorian clubs to MTBA head office to enable us to keep getting it done.

GREG MEYLAND

VICTORIA State Representative

WA REPORT

It has been a massive year for mountain biking in WA from a number of different perspectives.

WAMBA AND WESTCYCLE

The West Australian Mountain Bike Association have been doing some great work, particularly the president Louise Wallace and secretary Jodie Stenbridge.

WAMBA are the peak body for mountain biking in WA. They have a lot of mountain bike related programs on the go, most of which are building blocks for the future on mountain biking in WA. They are also working closely with Westcycle, the peak body for all of cycling in WA.

Westcycle's CEO Matt Fulton and WAMBA have been proactive in gaining funding to employ people in the office to specifically work on some of the mountain bike projects.

You may have already heard that on top of the employment positions mentioned above, WAMBA and Westcycle have been awarded \$450 000 over 3 years to be spent on mountain biking. Mainly getting more people mountain biking.

MOUNTAIN BIKE EVENTS

The events calendar has been chock a block full and the riders have been spoilt for choice. But this has also meant that the numbers have been spread out and some events haven't hit their target numbers. In fact some events haven't even run because of this

The Calendar has consisted of the following disciplines

- XC series
- DH series
- GE series
- CX series
- Marathon races
- Stage races

We are honored though to have been awarded 3 national round statuses for the year as well.

- Pemberton XCO Double Header National Rounds, and again in 2016.
- GE National Round at the Goat Farm
- Dwellingup 100 National Marathon Round

XC SERIES

We still have a club run series that has 7 races.

The best 6 races counts towards points and riders must do at least 4 races to qualify. We encourage riders to be members of MTBA, but also stipulate that a rider MUST be a member of MTBA to eligible for end of season points and prizes.

To go with the XC series, we developed a set of rules and guidelines for both the race organizers and the competitors.

DH SERIES

The Peel Districts MTB Club runs the state DH series, which includes 5 rounds and a State Championships race. They also run an "Enduro" style gravity series and skills development days to encourage participation in downhill racing. In the last 12 months, the club has significantly increased the average number of women in their races from 1 or 2 up to 6 or 7 at every race.

WORLD CHAMPS

Another highlight for WA was having 3 athletes selected for world champs.

- Sam Hill = DH
- Jordan Prochyna = DH (Of which PDMBC contributed \$2000)
- Reece Tucknott = XCO

JUNIOR DEVELOPMENT

WA have also hosted 2 of the MTBA Junior Development Camps, 1 in Perth and 1 in Pemberton. These have been run under the guidance of Mark Wardle from Rock and Roll MTB and Evan James from MTBA.

The Southwest MTB Club, Perth MTB club, Kalamunda Collective, Rock and Roll MTB, Dunsborough, Burrup, Albany, Dwellingup and most others are all running some sort of junior program as well.

Rock and Roll MTB are also doing quite a number of school programs through their out door education programs. They also do a women's only ride once a week.

JUNIOR STATE TEAM

Through WAMBA and Westcycle we have also developed a selection policy for picking juniors to make up a state team to travel to the MTB nationals together. We have application forms, policy documents and a selection panel. The applications close after both the DH and XCO state championships are run. This will be the third year WA have assembled a team for the nationals.

MASTER PLAN

A master plan to outline the best places and strategies for trail development in the South West region is now complete and soon to be officially launched. There is also a master plan being developed for the Perth and Peel region. There is a lot hinging on these plans and the Department of Parks and Wildlife are a key stakeholder in the plan and will use it as a guide to allocate resources for further trail development projects.

Unfortunately, while the master plan is good and positive work, there is a number of illegal trails still popping up around our Perth Hills. We know this happening all over Australia, and working on the relationships between all of the people involved is surely a key starting point to helping this problem.

Having proactive bodies like WAMBA looking after these projects, dealing with DPaW and government departments is also good for the sport.
