## CHAIR'S REPORT

**AS I SIT BACK AND REFLECT ON FY19 AND EVERYTHING MTBA AND THE MOUNTAIN BIKING COMMUNITY AND MEMBERS IN GENERAL HAVE ACHIEVED, I AM EXTREMELY PROUD, HUMBLLED, ENERGISED AND A LITTLE TIRED TOO AS IT CERTAINLY HAS BEEN A BIG YEAR ON AND OFF THE TRAILS!**

But first, a big thanks to Tony Hancock the outgoing Chair who volunteered a lot of personal time, knowledge and leadership to MTBA before stepping down at last year's AGM. I was privileged to work with Tony during 2017 and 2018 as an Appointed Director and then Deputy Chair. MTBA is now three years into the five year Strategic Plan defined by the Board in 2016 and it is great to see the management team achieving so many of the goals set. There are three key areas to the plan but the primary focus has and continues to be in growing the participation and engagement in the sport where we get to "Live Our Life Off Road".

In summary, membership and club affiliation continued to grow in FY19, uptake of the new National Cup enabled more riders to compete across the country throughout the year, new digital platforms were created for members, we received State and National funding as well as continued support from our sponsors Thule, Red Bull, Scody and Sports Armour, and then we were inspired by some great performances at national and international level just to name a few. In addition to having some very talented athletes competing in the elite and open categories in a range of disciplines, we also have plenty of juniors coming through at school, club, national and international events

who are champions today, and will continue to inspire the next generation for years to come. Australia certainly has deep and strong talent and we hope the broad base of members we support are being inspired by their performances and new talent has the ability to come through wherever they are based, or the type of riding they chose. The junior development program led by Sports Manager Evan James which included support and travel to particular Australian and international events, advance skills multi day camps and team building events, high performance race campaigns and administration is obviously paying off with the results we have seen across the disciplines in FY19.

The strength of our national entity is founded on a strong community base in every state and territory in Australia and we were pleased to see the tremendous support from clubs, members and volunteers for the National Cup this year where over 60 events delivered all around the country listed in the first six months. A great take up of a new concept particularly in its first year, and we can't wait to see how this improved format will continue to grow and improve.

For me personally, I was very proud to see three adaptive riders compete at the National Championships in Bright and hope they could hear the loud cheering from the sideline as they passed the attendees at the Women in Mountain Biking Breakfast discussion held to showcase a number of women who support, participate and lead our sport. The inclusion of these athletes was great to see, and truly inspiring. The world had just seen the para athletes compete alongside the able-bodied athletes at the Commonwealth Games on the Gold Coast which was a world first, and hopefully the new standard for all sports. We are certainly doing our best to support and include all riders and athletes in mountain biking and will continue to do.

---

The number of accredited coaches, commissaires and skills instructors increased from last year and the MTBA team delivered in excess of 70 coach, commissaire and introductory courses and workshops throughout Australia in FY19. More and more people of all ages and abilities are riding mountain bikes and enjoying the benefits of riding in so many great locations across Australia and beyond. The positive vibes are spreading and mountain biking as a sport, social activity, organisation and community continues to grow at rates that other sports are envious of. Our total membership growth was 8.8% compared to last year and the envy of many other sports and cycling disciplines who have been challenged with declining growth as there are so many other sports, activities and in-activities (screens, eSports etc) bidding for people's time, attention and money.

After receiving National Sporting Organisation recognition from Sport Australia 2017, MTBA is now recognised as the peak body in four states of Australia and received in excess of \$450k funding for a range of exciting activities and programs in local communities including participation programs for women, girls and people with a disability, MTB101 programs for women, an economic and participation analysis of mountain biking in Australia, regional mountain bike workshops as well as the employment of dedicated staff to develop mountain biking in the Northern Territory just to name a few. Well done to Denise Cox, our Chief Operating Officer for her tireless work in this space who will be even busier overseeing the delivery of these programs across Australia for the next two years.

Recent years has seen a significant investment by all levels of government into trail planning, design and construction, and 2018/2019 saw no sign of this investment slowing.

This re-enforces acknowledgement by government agencies of the popularity of mountain biking and associated community health and well-being, and economic benefits. MTBA continued to provide advice, data and information to help inform over 35 mountain bike specific or general sport and recreation

planning documents and provided letters to clubs and local government agencies in support of 26 mountain bike infrastructure or program projects. A number of major trail development projects are being planned or constructed throughout Australia, many with local club volunteers playing an integral part in the process. The Australian MTB Trail Management Guidelines were released after four years of consultation and development. Again big thanks to Denise Cox for her dedication and commitment to trail development in addition to everything else she does for MTBA.

So, with all this success in a growing market you may be wondering how much further can MTBA go? There are millions of bike riders in Australia and if you listen to the manufacturers and bike shops, the majority of bikes sold are mountain bikes including eBikes which also have a home in our off-road community. The board and management team believe we can continue to incrementally improve our services, increase membership numbers and inspire people to live their life off road on a mountain bike, however cycling and the role it plays in Australia, in all its forms is changing. The majority of Australians are not exercising the recommended 30 minutes per day, stress levels are high, mental health days are a reality in our digital fast paced world, traffic congestion is increasing and parents don't believe it is safe to allow their children to ride their bikes to school like we used to. MTBA has a small team with a big remit across Australia, but we are also competing against many other sports including 18 cycling entities in BMX, Road and Track. There is no single voice to lobby government for federal funding, speak on behalf of cyclists and advocate for more trails, infrastructure, safer roads and greater participation.

Ultimately, we all want more people riding their bikes but at the moment we only do this in our own small sphere of influence. We have truly appreciated the sponsorship we receive from Scody, Red Bull, Thule, Sports Armour and Maurice Blackburn but know there are also large corporates trying to support and promote active lifestyles, children, women, people with disabilities and those in regional areas but do not know how to access these groups.

## CHAIR'S REPORT

All of the Olympic sports have found themselves competing against the professional codes for athletes, supporters, media rights/airtime, sponsors, grants and the staff who work tirelessly in the background but cycling is losing that battle as we just don't have the member numbers or financial resources to compete as 19 individual organisations. There have been many discussions, heated arguments and a few attempts to come together over the years but without any success, until about 18 months ago when the CEO's and Chairs of Cycling Australia, BMXA and MTBA realised the need to collaborate not compete with one another to make cycling stronger in Australia. With this vision in mind along with support from Sport Australia, we have been able to constructively progress the conversations into a real value proposition for all current and future cyclists in Australia including simpler membership structure providing greater value for members, a more effective voice for cycling and a governance and operating structure that permits a more efficient use of resources in all states and territories of Australia. A number of MTBA Board members, the CEO and I have collaboratively worked with our peers from BMX Australia and Cycling Australia for the first time ever and believe we have a once in a lifetime opportunity to create a new entity for future Australian cyclists, staff and volunteers, high performance athletes, as well children, commuters, social riders, local racers, dirt lovers, unicyclists, BMX, road and track riders – no matter what the size of the tyre, their age, gender, ability, location or involvement with the sport. By the time this report is released, we would have completed many workshops, presentations and conversations to share this proposal with the members, clubs and staff who we are ultimately doing this for. It is a member decision to approve this significant change, and one I hope you all make fully informed

so that you understand the significant opportunities it presents for the future of mountain biking in Australia while at the same time still enabling you to ride your bike off road like you do today. I lead transformational changes in my day job and know that we still have a lot of work ahead if the members support this proposal but I am confident we will all see the benefits if the past 12 months of effort, dedication, passion and expertise has been any indicator.

A huge thanks to our CEO Shane Coppin for the great job he has done in a challenging and very busy year. He has appointed a talented, dedicated, passionate and high performing team to work with him and in some cases on their own very successfully when his priorities have been on the future of cycling in Australia and MTBA's role in that larger community.

Congratulations and thanks to the elite mountain biking athletes who have consistently stood on international podiums throughout 2018 and 2019 and inspired thousands of fans, children and riders at home, and to all our clubs, volunteers, coaches, administrators, parents and families who provide their time, passion and support to enable some 17,000 members to 'Live their Life Off Road' on trails we all love.

And finally, thanks to my fellow board members. It has been great to share my passion for the sport with Lachlan Murray, Wayne Shearer, Lisa Morisset, Robyn Walker, Peter McKendry, Alison Blyth, Tony Scott and April Rich who are a team of talented professionals that volunteer their time and expertise to govern MTBA and support each other.

**"Live Your Life Off-Road"**

**Lee Brentzell**  
**Chair**

## CEO'S REPORT

### THE PAST TWELVE MONTHS WERE A VERY CONSTRUCTIVE AND PRODUCTIVE PERIOD FOR MOUNTAIN BIKE AUSTRALIA (MTBA) WITH A NUMBER OF SIGNIFICANT ACHIEVEMENTS AND OUTCOMES.

Every year seems increasingly busier than the last, with our organisation continually evolving, as staff create new opportunities, initiatives and improvements for the benefit of members, clubs, the broader MTB community and stakeholders.

I have grown to expect incredible and high-quality outcomes and innovation from our very talented team of staff. Yet again, they have delivered and collectively produced numerous tangible benefits and quality improvements to our company's operations. I would like to thank and acknowledge every member of the MTBA team. I am extremely fortunate to work with such a talented and passionate group of people, and often reflect on the difference we as a team have made to our organisation.

From an athlete performance perspective, there have been many very proud results during 2019 for a number of individuals at both the national and international level across all disciplines. MTBA Sport Manager, Evan James has done an enormous amount of work in redeveloping our athlete pathways and representative programs and the results of his years of work in this area is now being seen, through programs such as the MTBA travel program to national level events.

A special mention to Sam Hill who is the first person to ever be awarded MTBA's Legend Award at our 2018 Achievement Awards. A most fitting award for this hero of our sport. Whilst, acknowledging performance, one of the highlights of the year was the opportunity at the annual awards function to recognise and thank some of the many members of MTBA who have provided significant contributions to the MTB community.

Our National Championships across all disciplines were a tremendous success and it was exciting to introduce and award National Champions for the first time in categories of womens adaptive Cross-Country and pump-track. In January, we launched the MTBA National Cup an exciting new national competition framework that provides for a participation based competition that links all locations in Australia and all levels of competition together to earn National Cup points and lead to national rankings. The National Cup currently supports competition in Cross-Country, Downhill, Marathon, Gravity Enduro and State Races. As with everything new, the National Cup is an adjustment, but the support in its first six months has been extremely positive with approximately 8000 entries across 66 events.

During the 4th quarter of the year, MTBA launched an exciting new online video portal "myMTB.tv". This new initiative was developed to showcase a variety of MTB video content and footage, provided by members, clubs, advertisers, tourism organisations and anyone wishing to upload and share their content.

AusCycling is an exciting opportunity for our sport and for cycling as a whole in Australia. It is a proposal that involves the dissolution and merger of 19 cycling entities, (Cycling Australia and BMX Australia and their state/territory affiliates, and MTBA) into one significant powerhouse national cycling body representing all disciplines.

MTBA has taken a leading role in partnership with Cycling Australia and BMX Australia to drive and develop this opportunity so that a proposal can be presented to members for a vote to accept at the AGM in late 2019. Cycling in Australia currently operates in a fragmented and divided way, yet all organisations strive for very similar outcomes - more members with increased value and benefits, increased funding, beneficial partnerships with sponsors and key stakeholders, improved infrastructure, advocacy and high quality events, education and training programs, and a high standard of service delivery. There is tremendous capability, skills and experience within all our organisations, yet the organisations lack any real and tangible capacity whilst remaining as separate diluted organisations competing with each other, rather than collaborating as a unified entity.

The AusCycling proposal is an opportunity to positively change the future of not only mountain biking but all forms of bike riding. Whilst MTBA has for a number of years including 2019, been experiencing modest success in many areas of our business, and potentially it could be argued significant success in comparison to many other similar sports, the reality is that to evolve and be able to continue to improve service delivery and enhance member benefits, a significant change is required. The AusCycling proposal provides this opportunity for positive change and will result in a greater voice and recognition of mountain biking and cycling as a whole. We should not see AusCycling as a threat. The status quo is not sustainable or significantly beneficial in the long term, let's be wary, but acknowledge MTB has a significant role to play in the future of cycling in Australia. This is an opportunity that rarely comes along, let's ensure it gets our attention and we don't miss something that could prove

to be one of the greatest opportunities for MTB in Australia. The AusCycling proposal aligns with MTBA's future aspirations - inclusion of all disciplines, simplified memberships, access to local offices and support and endless opportunities for growth.

The financial result for the past year was a modest surplus of \$25,924. Whilst, a relatively small surplus, this indicates MTBA's capacity to provide benefits, programs, services and events for members throughout 2019, whilst maintaining strong financial controls that keep the organisation financially sustainable.

Membership numbers continue to grow. FY19 saw an increase of just under 9%. On a five-year basis MTBA's membership has grown by 59.7% and we have also seen a small increase in female membership. Recreation members now account for approximately 30% of our overall membership, which is an increase of 19% on last financial year. This growth re-enforces the popularity of mountain biking as an outdoor recreation activity.

Once again in FY19, MTBA has received considerable support from partners such as Thule, Red Bull, Scody, Sports Amour and Maurice Blackburn. We thank them for their continued support.

There have been many significant achievements and highlights for MTBA during the past twelve-months some of which are mentioned throughout this report. One I would like to make special mention of is the April 2019 release of the Australian Mountain Bike Trail Guidelines. This project, a culmination of over four years of work by MTBA, the Trails & Advocacy Management Advisory Commission and numerous others, produced a terrific resource for the construction and maintenance of trails in Australia. My congratulations and thanks to MTBA's Denise Cox for her commitment to this project which came

---

about from a statement I made in the first Australian Mountain Bike Summit held at Mt Buller in 2014.

During the course of the last twelve months, and since MTBA received National Sporting Organisation (NSO) recognition from SportAus in late 2017, MTBA has received State Sporting Organisation (SSO) recognition for MTB in both Tasmania and Northern Territory. In both instances, recognition resulted in new state/territory level funding to support the development and delivery of a range of participation initiatives in both regions. MTBA now holds SSO recognition in three States/Territories and at the close of this financial year was awaiting Ministerial approval and funding announcements from Victoria, which is now confirmed at time of writing this report.

In other new ventures, MTBA received funding support from SportAus via their Move it AUS participation grants program to further develop MTBA's MTB101 program including delivery of participation initiatives for women and girls and people with a disability. In FY19, MTBA were successful in securing funding via the Federal Governments Building Better Regions Fund to undertake an economic and participation analysis of mountain biking in Australia and deliver a series of demystifying mountain biking and enabling communities workshops in regional Australia.

MTBA is fortunate to have a highly skilled and experienced team leading our organisation as our Board of Directors. The Board is led by Chair Lee Brentzell. Her guidance, wisdom and passion to ensure MTBA is governed effectively and efficiently and up holds its duty to members has been invaluable throughout FY19. As CEO, I wish to thank Lee, Lachlan Murray (Chair of the MTBA Audit and Risk Committee) and all others Directors for their advice and support during the last 12 months.

Our members and clubs are the heart and soul of our organisation and of mountain biking, and never cease to amaze and inspire me with their achievements and ongoing commitment to develop, promote and grow our sport in local communities and throughout Australia. The contribution by volunteers throughout the country is extraordinary and can only be congratulated. I cannot think of another sport that has volunteers contributing to so many diverse areas of an activity for the benefit of not just MTBA/Club members, but for the general community.

Mountain bike truly is a lifestyle activity, one that is enjoyed by many hundreds of thousands of people every year. Our sport is not only growing in number of participants, and places to ride, but it has the capacity to transform communities and locations through investment, opportunity, tourism, and promotion. Mountain biking is a life long outdoor recreation activity providing health and wellbeing benefits which are matched in equal measures of fun, friendship and camaraderie.

I wish you all the best for the future and thank you for your ongoing and continued support of MTBA.

**Shane Coppin**  
**CEO**

## CORPORATE GOVERNANCE

### **MOUNTAIN BIKE AUSTRALIA IS COMMITTED TO HIGH STANDARDS OF CORPORATE GOVERNANCE AND ACHIEVING FULL COMPLIANCE WITH SPORT AUSTRALIA'S MANDATORY GOVERNANCE PRINCIPLES.**

As a non-funded National Sporting Organisation (NSO), Mountain Bike Australia is working to comply with all the mandatory Sport Australia governance principles. Throughout 2019/2020, four new charters were adopted and improvements were made to governance practices in the areas of meeting agendas and reporting.

#### **BOARD STRUCTURE**

The Board consists of six Elected Directors, and three Appointed Directors who are recommended by the Nominations Committee and appointed by the Board along with the Chair. As per the organisations Constitution, the Board may have up to nine Directors.

#### **FOUNDATIONS FOR MANAGEMENT AND OVERSIGHT**

Under the terms of the MTBA Constitution, the Board is accountable to the individual members of Mountain Bike Australia for the pursuit of the organisations purpose, values and goals and performance of the Company.

The role of the Board and the governance principles exercised by the Company are set out in the Board Charter. The Board is responsible for establishing the strategic direction, reviewing and monitoring the operational and financial performance of the Company, effectiveness and efficiency of management and overseeing the Company's compliance with legislation and regulations.

The Board has a range of policies to provide direction to the Chief Executive Officer and senior management. A framework of delegated authorities from the Board outlines decision-making responsibilities and financial delegations for the CEO and employees.

The Board delegates responsibility to Mountain Bike Australia Board sub-committees to oversee aspects of the Company's operations and administration in finance, audit, risk, senior management remuneration and Board nominations. Each committee operates under an approved charter that are reviewed annually and updated by the Mountain Bike Australia Board.

#### **ETHICAL AND RESPONSIBLE DECISION MAKING**

The Mountain Bike Australia Code of Conduct, Member Protection Policy and Core Values apply to Board, management and staff. In addition, a Directors Code of Conduct and Board Charter also applies to the Board. These codes and policies outline standards and behaviours necessary to maintain confidence in the organisation's integrity.

Directors are required to apply the highest standard of ethical conduct in carrying out their duties and responsibilities, apply their independent judgment to Board decisions, ask questions and seek information to ensure fully informed decision making.

## **INTEGRITY IN FINANCIAL REPORTING**

The Mountain Bike Australia Audit, Risk and Remuneration Committee is responsible for assisting the Board to comply with their corporate governance responsibilities and includes providing advice on financial management and reporting, risk management and effectiveness of the internal and external audit functions.

The Board is responsible for financial and non-financial performance of the Company and includes annual approval of membership fees.

## **MANAGING RISK**

The Board with assistance from the Audit, Risk and Remuneration Committee is responsible for monitoring key financial and non-financial risk areas by ensuring the implementation of an effective risk management and internal control framework.

## **REMUNERATION**

The Board adopted a new procedure for reviewing the performance of senior staff and determining remuneration in conjunction with the Audit, Risk and Remuneration Committee. The CEO is responsible for determining the remuneration of all other employees.

## **DIRECTORS FEES**

Directors are reimbursed for expenses directly related to Board activities including travel, accommodation and meals in accordance with the relevant policy.

## **COMMITTEES**

**The following committees assist the Board to carry out their obligations to the Company and its members.**

### **AUDIT, RISK AND REMUNERATION**

Lachlan Murray, Chair - MTBA Director

April Rich - MTBA Director

Alison Blyth - MTBA Director

Wayne Shearer - MTBA Director

Simon Neil - Independent

Shane Coppin - Non-Voting (MTBA)

Lauren Monds - Non-Voting (MTBA)

### **NATIONAL SELECTION COMMITTEE**

Evan James - Non-Voting Chair (MTBA)

Rob Eva - Independent

Damian Grundy - Independent  
(until February 2019)

Joanna Wall - Independent

### **NOMINATIONS COMMITTEE**

#### **- UP TO 2 NOVEMBER 2018**

Courtenay Lee Shoy, Chair - MTBA Director

Deborah Ambar - Independent

James Ceeley - Australian Sports  
Commission

Anthony Willis - Independent

Peter McKendry - MTBA Director  
(from 2 November 2018)

### **DISCIPLINARY COMMITTEE**

April Rich, Chair - MTBA Director

Peter McKendry - MTBA Director

Lisa Morisset - MTBA Director

## STRATEGIC OVERVIEW

**MOUNTAIN BIKE AUSTRALIA (MTBA) IS THE PEAK BODY RESPONSIBLE FOR THE GOVERNANCE, PROMOTION AND ADVOCACY OF MOUNTAIN BIKING IN AUSTRALIA. THE ORGANISATIONS MISSION IS TO DEVELOP AND PROMOTE MOUNTAIN BIKING IN AUSTRALIA FOR THE BENEFIT OF ALL.**

MTBA has a Strategic Plan, which sets the priorities, focus's energy and resources and strengthens operations to ensure that employees and other stakeholders are working toward common goals and agreed outcomes. Below is a summary of achievements during FY19.

**Corporate: Operate as a sustainable and professional organisation with effective governance.**

### **DELIVERABLES**

- » Become a Company Limited By Guarantee with advisory commissions.
- » Establish and maintain good governance practices.
- » Strengthen financial position and diversify revenue base.
- » Become a recognised Australian Sports Commission (ASC) National Sporting Organisation.
- » Establish a clear brand for MTBA with defined value.

### **COMMENTS**

Since achieving Company Limited By Guarantee status on 21 December 2016, two advisory commissions have been in operation – Trails and Advocacy, and Sport and Technical.

The Company implements good governance practices and strives for continuous improvement across all areas of the organisation. New practices and processes have been implemented during FY19 including more succinct and efficient Board meetings, improved agenda and reporting requirements.

The Company's financial position has strengthened and stabilised over the past four years with a surplus again achieved in FY19. Refer to report by the Chair of the Audit, Risk and Remuneration Committee and audited financial statements for further information.

Approximately \$450,000 of funded programs and projects were either delivered in FY19 or funding was secured for deliver in future years. This included delivery of a suite of participation initiatives in Qld and Tasmania, development and delivery of a participation program for women, girls and people with a disability, an economic & participation analysis of MTB in Australia, delivery of regional mountain bike workshops and employment of dedicated staff to develop mountain biking in the Northern Territory.

Since receiving recognition as a National Sporting Organisation (NSO) from Sport Australia (formerly the Australian Sports Commission) in November 2017, MTBA are yet to receive ongoing financial support from Sport Australia. Funding was secured in FY19 via Sport Australia's Move It AUS program to deliver a participation and skill development program to women and girls and people with a disability over a 12 month period.

The LIVE YOUR LIFE OFF-ROAD brand continues to be a significant feature in social media and various marketing and promotional collateral.

myMTB.tv, an online channel dedicated to mountain biking in Australia was launched in May 2019 as part of MTBA's commitment to establishing a digital platform for the promotion of mountain biking. FY19 also saw the release of MTBA's membership app, providing members with convenient access to membership, competition and event details.

**Engagement: Provide opportunities to participate in mountain biking.**

**DELIVERABLES**

- » Continue to grow membership.
- » Strengthen partnerships with affiliated bodies and other stakeholders.
- » Support stakeholders to build capacity.
- » Become a leading advocate for mountain biking.

**COMMENTS**

In the past 12 months, MTBA's financial members increased by 8.8% with a 19% and 5.5% increase respectively in recreation and race membership. With the inclusion of past members and those that had purchased a day license, MTBA's reach is to over 75,000 individuals.

MTBA continued to strengthen partnerships with affiliated bodies and stakeholders

throughout FY19 by providing advice and guidance to clubs, local and state government agencies, consultants and other stakeholders on a range of issues. MTBA delivered many outcomes and achieved some significant milestones to help provide opportunities for people to ride and develop places to ride including:

- » Delivery of a pilot women's MTB101 in regional Victoria with funding from the Victorian Government's Change Our Game initiative
- » Producing and publishing the Australian Mountain Bike Trail Guidelines, a culmination of four years research, consultation and input from many within the mountain bike community
- » Partnering with affiliates to deliver mountain bike skill development clinics, club promotional videos and education and training courses
- » Delivery of two national level commissaire courses accrediting an additional ten national commissaires.

## STRATEGIC OVERVIEW

A number of technical regulations, guidelines and other publications to support stakeholders deliver mountain bike activities were revised or created. This included a revision of the National and club/regional event technical regulations, restructured commissaires training and level 0 and 1 skill instructor training framework.

Partnership with Thule, Sports Armour, Scody and Maurice Blackburn were either established or continued in FY19.

MTBA continues to provide education opportunities to members of the community. In FY19, MTBA delivered four commissaire and 60 skill instructor courses throughout Australia, providing accreditation to an additional 484 people and increasing the number of accredited mountain bike officials, instructors and coaches in Australia to 1,011.

In support of applications for funding for mountain bike infrastructure projects and programs, MTBA provided 26 letters of support. In addition, membership and club statistics, feedback and comments were provided to consultants, state and local government agencies to help inform and develop 38 mountain bike master plans and/or sport and recreation strategies and other mountain bike related research projects.

With funding support from the Queensland Government and guidance from the Trails and Advocacy Management Commission, MTBA completed the Australian Mountain Bike Trail Guidelines. A resource for land managers, trail professionals and mountain bike groups, the guidelines provide information to ensure a consistent approach to planning, designing, constructing and managing sustainable mountain bike trails.

Discussions with state/territory government agencies regarding similar recognition and funding opportunities to what is in place in Queensland, progressed throughout FY19 resulting in successful partnerships with the Tasmanian and the Northern Territory governments.

**Delivery: Lead the development and promotion in Australia of a variety of diverse mountain bike activities.**

### DELIVERABLES

- » Establish and implement a sustainable event delivery model(s).
- » Ensure MTBA events are delivered to a consistently high standard.
- » Provide relevant and quality pathways for people to participate in mountain biking.
- » Deliver an outcome driven high performance framework.

### COMMENTS

January 2019 saw a new national competition framework commence with a focus on participation and inclusiveness. In the first six months of operation, the National Cup, a tiered competition, featured 66 individual events held throughout the country across the disciplines of Cross-Country, Marathon, Downhill and Gravity Enduro, providing a platform for riders to receive a national ranking.

The 2019 MTBA National Championships held in Bright, Victoria saw a number of firsts. The Championships saw three riders contest the adaptive mountain bike cross country category and the crowning of Australia's first female champion. The Championships

---

played host to MTBA's inaugural women in mountain biking breakfast, featuring a panel of six women all sharing a unique perspective on their involvement in the mountain bike community and the inaugural Australian Pump Track Championships.

FY19 saw Cable Beach, Broome in WA host the Fat Bike National Championships for the second year.

MTBA's national junior travel assistance program provided opportunities for emerging U17, U19 and U23 riders in the disciplines of XCO, DHI, CX and GE to compete at selected Australia races. Ten camps in the disciplines of XCO, DHI, CX and GE were delivered under this program assisting 52 athletes.

Three five day multi-discipline camps were delivered to emerging riders in the U15 to U19 categories. The camps provided the opportunity for 70 participants to focus on skill development, training basics and team building activities both on and off the bike. MTBA facilitated and managed trips to international races encompassing the XCO, DHI, CX and GE disciplines for high level U19 athletes and also to assist with development of U23 and elite riders.

MTBA once again in FY19 made a significant investment in administering and providing support staff at the UCI Olympic Cross Country (XCO), Downhill (DHI) and Cyclo-cross (CX) World Championships as well providing support for the UCI Trials and Cross Country Marathon (XCM) World Championships. MTBA also administered entries for Cross-Country, Downhill, Trials

and Cyclo-cross World Cups including distributing federation (wildcard) entries to developing athletes that had not accrued sufficient points for individual entry.

Over 50 World Cup entries were administered in conjunction with Cycling Australia across XCO, DHI and CX.

The Australian XCO/DHI World Championships team of 54 who travelled to Switzerland, were fully staffed and supported by MTBA and included pre event planning including full logistics for a two week trip from Australia for 14 junior athletes and eight U23/Elite athletes.

The Australian CX World Championships team of nine who traveled to Denmark, were also fully staffed and supported by MTBA.

2	Samara MAXWELL	NZL	1:04:40
3	Ruby RYAN	NZL	1:05:58

## AUDIT AND RISK

**2018/19 HAS BEEN A SIGNIFICANT YEAR FOR MOUNTAIN BIKE AUSTRALIA. THE ONE CYCLING PROJECT (NOW KNOWN AS AUSCYCLING) HAS CONSUMED A CONSIDERABLE AMOUNT OF EFFORT AND RESOURCES FROM YOUR MTBA BOARD, CEO AND MANAGEMENT TEAM.**

But behind all that, MTBA has also traversed the year, being thrown challenges along the way but delivering milestones everyone can be proud of.

Firstly, to merely mention AusCycling has consumed a considerable amount of effort and resources really doesn't provide the gravitas of the extensive amount of work, stress, emotional toll and family strain the project has had on individuals at MTBA. The MTBA Board (including Chair) is a volunteer Board and hold down regular day jobs but feel so passionately about mountain biking in this country, we give up our time (regularly whole Saturdays, when the sun is out and the trails are flowing) because we want to help continue to shape mountain biking for the better in Australia. The AusCycling project, (the opportunity to bring together Cycling Australia, BMX Australia and Mountain Bike Australia) will be put to MTBA financial members to vote in late November at our AGM as a simple YES or NO. However, the work behind the scenes to get to this point is so significant, that often it was mentioned by staff at Sport Australia that their expectation was for the project to occupy "4 days a week full time for those on the Steering Committee".

I applaud everyone involved in the process, from all organisations (Sport AUS, CA, BMX, MTBA) to provide this opportunity to the members to consider, in the most transparent way possible. In particular, I thank MTBA Chair Lee Brentzell and CEO Shane Coppin for the 100's of hours dedicated to One Cycling (outside of their regular day jobs, of course).

As touched on, MTBA encountered a number of challenges in 2018/19. For those who race or follow the XCO/DHI Nationals, you may have noticed the back to back nature of the Oceania Champs a few days later. Hosting the Oceania Champs so closely to the National Champs helps with cost efficiencies, but the income doesn't go close to offsetting the cost of the bi-annually ran event in Australia. This year, the Nationals/Oceanias were held in Bright in April and whilst the Nationals event saw a small profit, the lack of demand and support for Oceanias resulted in a \$80,408 loss. A significant impost given MTBA is a not-for-profit entity with typical budgets of \$50,000-\$60,000 profit for the entire year.

The XCM National Champs were due to be held in Townsville in May, however the flooding earlier in the year damaged the trails which couldn't be rectified in time. The event was shifted to Bayview and hosted by the RATS Cycling Club as part of their annual Bayview Blast and was ultimately hailed a success.

The National Cup was introduced from 1 January as a program that would allow riders from all corners of Australia to compete without the travel burden. The first 6 months saw success both from a financial and participation perspective. Approximately 8,000 MTBA members have raced across 60+ events hosted by 56 MTBA affiliates.

## FINANCIAL PERFORMANCE

Revenues increased from last year by 9.3%. With grant monies broadly flat (\$159,437), the growth in revenues was driven by membership fees, up 13.3% to \$1.795m. Underpinning the 13.3% growth was 19% growth in recreational members, and 5.5% growth in race members netting 9% growth in financial members. The recreational membership has proven popular in recent years and now represents approximately 30% of all paid up members. Pleasingly, race membership had its best growth in 2019 (5.5%) a reflection of how the National Cup is resonating with mountain-bikers, Australia wide.

As previously mentioned, the cost of the Oceanias was incorporated into the FY18/19 profit and loss, which ultimately landed at \$25,924.

As mentioned in previous Audit and Risk reports, under the MTBA strategic plan, the financial KPI's below are measured and monitored.

KPI	Measure
Cash equity increase	Increased \$266,929 during the year (2018: Increase of \$94,821)
Current assets at least 1.5 times greater than current liabilities	The current ratio was 1.63 at 30 June 2019 (2018: 2.51)
Members equity ratio of 25:1 or above	The Members Equity ratio was 33:1 at 30 June 2019 (2018: 34:1)

In November 2019, MTBA members will vote on the AusCycling model. Whilst we don't know what the outcome will be, mountain biking continues to grow and is poised for an exciting future regardless of the operating model voted on.

And finally, I would like to thank fellow members of the Audit and Risk Committee for their diligence and commitment throughout FY19.

**Lachlan Murray**  
**Chair - Audit and Risk Committee**

### PRINCIPAL ACTIVITIES

The principal activity of Mountain Bike Australia Ltd (MTBA) during the period is to be the peak body for mountain biking in Australia. MTBA aims to lead the development and promotion in Australia for the benefit and enjoyment of all mountain bikers by:

1. Providing services, trail advocacy and communications of value to our members to enable them to enjoy mountain biking.
2. Promoting, developing and advocating mountain biking as a healthy sporting and recreational past-time.
3. Fostering and maintaining constructive relationships with cycling organisations and key stakeholders.
4. Providing a safe and fair environment for competitive mountain biking, appropriate and relevant to the various levels across the sport.
5. Managing and governing the organisation in a transparent, financially responsible and sustainable manner.

No significant changes in the nature of the Company's activity occurred during the financial year.

### MEMBERS' GUARANTEE

Mountain Bike Australia Ltd is a company limited by guarantee. In the event of, and for the purpose of winding up of the company, the amount capable of being called up from each member and any person or association who ceased to be a member in the year prior to the winding up, is limited to \$1 for members (section 25.1) subject to the provisions of the company's constitution. At 30 June 2019 total members were 16,709 (2018: 15,360).

# DIRECTORS' REPORT

## 2. OTHER ITEMS

### SHORT TERM AND LONG TERM OBJECTIVES

*The company's long term objectives are to:*

#### Corporate

- » Operate as a sustainable and professional organisation with effective governance.

#### Engagement

- » Provide opportunities to participate in mountain biking.

#### Delivery

- » Lead the development and promotion in Australia of a variety of diverse mountain biking activities.

*The company's short term objectives are to:*

#### Corporate

- » Maximise opportunities to strengthen the case for permanent NSO recognition;
- » Identify the value of the MTBA brand and establish framework for use by external organisations;
- » Strengthen financial position & diversify revenue base.

#### Engagement

- » Complete an economic & participation analysis of mountain biking in Australia;
- » Deliver successful outcomes relating to funding agreements from state governments;
- » Explore the concept of creating communities to grow mountain biking;
- » Establish new mainstream ways to introduce people to MTBA.

#### Delivery

- » Produce a handbook to guide delivery of events across all disciplines;
- » Introduce a rewards based high performance support program;
- » Enhance and further develop the MTBA Academy development program;
- » Further develop and deliver the MTB101 program.

## KEY PERFORMANCE MEASURES

The company measures its own performance through the use of both quantitative and qualitative benchmarks. The benchmarks are used by the directors to assess the financial sustainability of the company and whether the company's short-term and long-term objectives are being achieved.

## STRATEGY

To achieve its stated objectives, the company has adopted a number of success indicators including:

- » Work effectively with affiliated organisations to strengthen partnerships;
- » Build the capability and capacity of clubs and stakeholders to encourage membership and participation;
- » Develop innovative products and programs;
- » Improve good governance practices;
- » Create sustainable events; and
- » Develop and implement innovative programs and services that will facilitate high performance outcomes.

## COMPANY SECRETARY

Company Secretary is Denise Cox and she has been in position for the full financial year.

## MEETINGS OF DIRECTORS

Attendance by each director to meetings held during the year were as follows:

# NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2019

The financial statements cover Mountain Bike Australia Limited as an individual entity, incorporated and domiciled in Australia. Mountain Bike Australia Limited is a company limited by guarantee.

The financial statements were authorised for issue on the date of signing the Directors report.

## NOTE 1: BASIS OF PREPARATION

The directors have prepared the financial statements on the basis that the company is a non-reporting entity because there are no users dependent on general purpose financial statements. These financial statements are therefore special purpose financial statements that have been prepared in order to meet the requirements of the Corporations Act 2001. The company is a not-for-profit entity for financial reporting purposes under Australian Accounting Standards.

The financial statements have been prepared in accordance with the mandatory Australian Accounting Standards applicable to entities reporting under the Corporations Act 2001 and the significant accounting policies disclosed below, which the directors have determined are appropriate to meet the needs of members. Such accounting policies are consistent with those of previous periods unless stated otherwise.

The financial statements, except for the cash flow information, have been prepared on an accrual basis and are based on historical costs unless otherwise stated in the notes. Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless stated otherwise. The amounts presented in the financial statements have been rounded to the nearest dollar.

## NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### (A) INCOME TAX

No provision for income tax has been raised, as the association is exempt from income tax under sport entity exemption.

### (B) LEASES

Leases of fixed assets, where substantially all the risks and benefits incidental to the ownership of the asset (but not the legal ownership) that are transferred to entities in the economic entity, are classified as finance leases.

Finance leases are capitalised by recording an asset and a liability at the lower of the amounts equal to the fair value of the leased property or the present value of the minimum lease payments, including any guaranteed residual values. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Leased assets are depreciated on a straight-line basis over the shorter of their estimated useful lives or the lease term. Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses on a straight-line basis over the lease term.

### (C) REVENUE AND OTHER INCOME

#### Grant revenue

Grant revenue is recognised in the statement of profit or loss and other comprehensive income when the Company obtains control of the grant, it is probable that the economic benefits gained from the grant will flow to the entity and the amount of the grant can be measured reliably.

When grant revenue is received whereby the Company incurs an obligation to deliver economic value directly back to the contributor, this is considered a reciprocal transaction and the grant revenue is recognised in the statement of financial position as a liability until the service has been delivered to the contributor, otherwise the grant is recognised as income on receipt.

#### Rendering of services

Revenue in relation to rendering of services is recognised depending on whether the outcome of the services can be estimated reliably. If the outcome can be estimated reliably then the stage of completion of the services is used to determine the appropriate level of revenue to be recognised in the period.

If the outcome cannot be reliably estimated then revenue is recognised to the extent of expenses recognised that are recoverable.

# NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2019

## Subscriptions

Revenue from the provision of membership subscriptions is recorded on a cash basis.

## Other income

Other income is recognised on an accruals basis when the Company is entitled to it.

## (D) ACCOUNTS RECEIVABLE AND OTHER DEBTORS

Accounts receivable and other debtors include amounts due from donors and any outstanding grant receipts. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

## (E) GOODS AND SERVICES TAX (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows included in receipts from customers or payments to suppliers.

## (F) INVENTORIES

Inventories are measured at the lower of cost and current replacement cost.

## (G) PROPERTY, PLANT AND EQUIPMENT

Each class of property, plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment.

## (H) FINANCIAL ASSETS

Financial assets are term deposits with an initial maturity of longer than three months held for the purpose of investment rather than held for the purpose of meeting short-term cash commitments.

## (I) IMPAIRMENT

At the end of each reporting period, the entity reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair amount less costs of disposal and value in use, is compared to the asset's carrying amount. Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss.

Where the future economic benefits of the asset are not primarily dependent upon the asset's ability to generate net cash inflows and when the entity would, if deprived of the asset, replace its remaining future economic benefits, value in use is determined as the depreciated replacement cost of an asset.

Where it is not possible to estimate the recoverable amount of a class of asset, the entity estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Where an impairment loss on a revalued asset is identified, this is debited against the revaluation surplus in respect of the same class of asset to the extent that the impairment loss does not exceed the amount in the revaluation surplus for that same class of asset.

## (J) CASH AND CASH EQUIVALENTS

Cash on hand includes cash on hand, deposits held at call with banks, and other short-term highly liquid investments with original maturities of three months or less.

# NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2019

## (K) SHORT-TERM EMPLOYEE BENEFITS

Provision is made for the company's obligation for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages and salaries. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The company's obligations for short-term employee benefits such as wages and salaries are recognised as part of accounts payable and other payables in the statement of financial position.

Contributions are made by the company to an employee superannuation fund and are charged as expenses when incurred

## (L) PROVISIONS

Provisions are recognised when the entity has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions recognised represent the best estimate of the amounts required to settle the obligation at the end of the reporting period.

## (M) ACCOUNTS PAYABLE AND OTHER PAYABLES

Accounts payable and other payables represent the liability outstanding at the end of the reporting period for goods and services received by the company during the reporting period which remain unpaid. The balance is recognised as a current liability with the amount normally paid within 30 days of recognition of the liability.

## (N) ECONOMIC DEPENDENCE

Mountain Bike Australia Limited is dependent on membership fees for the majority of its revenue used to operate the business. At the date of this report the Board of Directors has no reason to believe the membership base of the company will diminish to provide going concern issues for the company. Refer to Note 16 for further disclosure on events after the end of the reporting period.

## (O) NEW ACCOUNTING STANDARDS AND INTERPRETATIONS

The AASB has issued new and amended Accounting Standards and Interpretations that have mandatory application dates for future reporting periods. The Company has decided not to early adopt these Standards. The following table summarises those future requirements, and their impact on the Company where the standard is relevant:

Standard Name	Effective date for entity	Requirements	Impact
AASB 16 Leases	Applicable to annual reporting periods beginning on or after 1 January 2019	AASB 16 will cause the majority of leases of an entity to be brought onto the statement of financial position. There are limited exceptions relating to short-term leases and low value assets which may remain off-balance sheet. The calculation of the lease liability will take into account appropriate discount rates, assumptions about lease term and increases in lease payments. A corresponding right to use asset will be recognised which will be amortised over the term of the lease. Rent expense will no longer be shown, the profit and loss impact of the leases will be through amortisation and interest charges.	Operating leases will be brought onto the statement of financial position through the recognition of a right to use asset and associated lease liability. Interest and amortisation expense will increase and rental expense will decrease. As at 1 July 2019 a right to use asset (office rental) of \$60,523 will be recognised and amortised over the remaining useful life of the asset to October 2020. A lease liability of \$60,523 (net of unexpired interest) will be recognised.

# NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2019

## NOTE 3: CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The directors make estimates and judgements during the preparation of these financial statements regarding assumptions about current and future events affecting transactions and balances.

These estimates and judgements are based on the best information available at the time of preparing the financial statements, however as additional information is known then the actual results may differ from the estimates.

The significant estimates and judgements made have been described below.

### Impairment

The management and those charged with governance assess impairment at the end of each reporting period by evaluating conditions and events specific to the company that may be indicative of impairment triggers.

### Inventory

The Company reviews its estimates the net realisable values of inventories, taking into account the most reliable evidence available at each reporting date.

### Receivables

The receivables at reporting date have been reviewed to determine whether there is any objective evidence that any of the receivables are impaired. An impairment provision is included for any receivable where the entire balance is not considered collectible. The impairment provision is based on the best information at the reporting date.

- increase/(decrease) in provisions	20,814	8,599
<b>Cashflows from operations</b>	<b>329,415</b>	<b>104,706</b>

# NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2019

## **NOTE 16: EVENTS AFTER THE END OF THE REPORTING PERIOD**

The financial report was authorised for issue on the date of signing of the Director's Report.

MTBA are currently working in conjunction with BMX Australia and Cycling Australia on a proposal to unify all of the current cycling NSO's and respective SSO's to establish a new single nation-wide entity for cycling in Australia. This project is known as AusCycling and will be an opportunity presented to MTBA members as a special resolution at MTBA's 2019 AGM. Under the proposal it is recommended that MTBA joins the new company AusCycling, transferring all assets, liabilities and all future operational activities to the new entity and subsequently agree to voluntarily cancel MTBA's company registration. If agreement is gained by members and conditional on a majority agreement of other cycling NSO's and SSO's then MTBA's merger and transition into the new AusCycling entity is proposed to occur in the second quarter (April to June) period of 2020.

## **NOTE 17: EVENTS AFTER THE END OF THE REPORTING PERIOD**

The registered office and principal place of business of the company is:

Mountain Bike Australia Ltd  
246 Varsity Parade  
Varsity Lakes Queensland 4227

## DIRECTORS' DECLARATION

The directors have determined that the Company is not a reporting entity and that this special purpose financial report should be prepared in accordance with the accounting policies described in Note 2 to the financial statements.

The directors of the Company declare that:

**1. The financial statements and notes, as set out on pages 62 - 72, are in accordance with the Corporations Act 2001 and:**

- a. comply with Accounting Standards as stated in Note 1; and
- b. give a true and fair view of the Company's financial position as at 30 June 2019 and of its performance for the year ended on that date in accordance with the accounting policies described in Note 2 to the financial statements.

**2. In the directors' opinion, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.**

This declaration is made in accordance with a resolution of the Board of Directors.

AUDIT AND ASSURANCE

## INDEPENDANT AUDITOR'S REPORT

### TO THE MEMBERS OF MOUNTAIN BIKE AUSTRALIA LTD

#### UNQUALIFIED AUDITOR'S OPINION

We have audited the financial report of Mountain Bike Australia Ltd (the company), which comprises the statement of financial position as at 30 June 2019, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the director's declaration.

In our opinion, the accompanying financial report of the company is in accordance with the Corporations Act 2001, including:

- (i) Giving a true and fair view of the company's financial position as at 30 June 2019 and of its financial performance for the year then ended; and
- (ii) Complying with Australian Accounting Standards to the extent described in Note 1, and the Corporations Regulations 2001.

#### BASIS FOR OPINION

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110: Code of Ethics for Professional Accountants (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### EMPHASIS OF MATTER - BASIS OF ACCOUNTING

We draw attention to Note 1 to the financial report, which describes the basis of accounting. The financial report has been prepared for the purpose of fulfilling the director's financial reporting responsibilities under the Corporations Act 2001. As per Note 1 Directors have assessed the company as a non-reporting entity because there are no users dependant on general purpose financial statements.

Readers of the financial statements should be aware as a

result, the financial report may not be suitable for another purpose than the purpose stated for the directors fulfilling their responsibilities under the Corporations Act 2001. Our opinion is not modified in respect of this matter.

#### EMPHASIS OF MATTER - GOING CONCERN

We draw attention to Note 16 of the financial report, which draws attention to a potential merger of Mountain Bike Australia Ltd with other cycling NSO's and SSO's. The process to be presented to MTBA members proposes the company's assets, liabilities and future operational activities operate out of newly merged entity and voluntary cancel MTBA's company registration. The merger is dependent on member agreement and majority agreement of other cycling NSO's and SSO's. As a result of this proposal there is uncertainty if the company will continue as a going concern.

#### INFORMATION OTHER THAN THE FINANCIAL REPORT AND AUDITOR'S REPORT THEREON

The directors are responsible for the other information. The other information comprises the information included in the company's annual report for the year ended 30 June 2019, but does not include the financial report and our auditor's report thereon. Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon. In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### RESPONSIBILITIES OF THE DIRECTORS OF THE FINANCIAL REPORT

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view and have determined that the basis of preparation described in Note 1 to the financial report is appropriate to meet the requirements of the Corporations Act 2001 and is appropriate to meet the needs of the members. The directors' responsibility also includes such internal control as the directors determine is necessary to enable the preparation of a financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

## DICKFOS DUNN ADAM

AUDIT AND ASSURANCE

# INDEPENDANT AUDITOR'S REPORT

## TO THE MEMBERS OF MOUNTAIN BIKE AUSTRALIA LTD

In preparing the financial report, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

### MATTERS RELATING TO THE ELECTRONIC PRESENTATION OF THE AUDITED FINANCIAL REPORT

The audit report relates to the financial report of Mountain Bike Australia Ltd for the year ended 30 June 2019 included, or which will be included, on the company's website. We have not been engaged to report on the integrity of this website. This audit report refers only to the financial report identified above.

### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL REPORT

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- » Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- » Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.

- » Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors
- » Conclude on the appropriateness of the director's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- » Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## MESSAGE FROM SPORT AUSTRALIA

### SPORT AND PHYSICAL ACTIVITY HAS ENORMOUS INFLUENCE ON OUR NATION'S HEALTH, EDUCATION, SOCIAL, ECONOMIC AND DIPLOMATIC OUTCOMES.

It's why Sport Australia and the AIS remain steadfast in our vision: to make Australia the world's most active sporting nation, known for its integrity, sporting success and world-leading sports industry.

Australia's commitment, outlined in the Australian Government's national sport plan, Sport 2030, is to reduce physical inactivity by 15 per cent. It's a huge challenge Sport Australia enthusiastically accepts.

We are making significant progress and Sport Australia's programs are benefitting sport, as well as broader community health and wellbeing, including tackling issues such as obesity. Our partnerships with National Sporting Organisations (NSOs) remain fundamental, but we are also engaging more than ever with other networks to grow our sporting industry. Collaboration with physical activity providers, health, education and various levels of Government can deliver more for sport and all Australians.

This was highlighted in 2018-19 when Sport Australia, on behalf of the Australian Government, delivered \$150million in new participation programs. The \$100million Community Sport Infrastructure grants program is enhancing hundreds of grassroots facilities across Australia.

The \$28.9million Participation grants program is encouraging innovative programs that help break the down barriers to physical activity. The new \$22.9million Better Ageing grants program is helping senior Australians 65 and older to get more active and socially connected.

Our national Sporting Schools program remains a key platform to address childhood inactivity and drive generational change. We have funded 7300 schools and recorded more than 5.2million attendances since its launch in mid-2015. We continue to look at ways to maximise the impact of Sporting Schools and link it with our work in physical literacy. By teaching our children to run, throw, jump or kick, we put them on the path to better lives.

There is no success without integrity. We continue to encourage environments that are inclusive and welcoming. Increasing diversity in our industry is critical and we want to make sport the benchmark for a more equitable society.

All this work is emphasised by our national behaviour change campaign, Move It AUS. Our call to action is to 'Find Your 30' minutes of physical activity every day, and enjoy the benefits.

We are continuing to build the capability of the sports industry, addressing governance reform to bring out the very best in our sporting organisations. The One Management project looks at helping sports align their strategy, workforce and financial management.

The AIS, in partnership with the National Institute Network and National Sporting Organisations, is aligning Australia's high performance sport strategy too. The National High Performance Sport Strategy 2024 signals the first time all Federal and State/Territory sports agencies have signed up to a joint high performance strategy.

In November 2018, the AIS announced an updated investment model for high performance sport and through this improved framework, Olympic, Paralympic and Commonwealth Games sports will benefit from a longer term approach to funding. Instead of annual grants to sport, for the first time the AIS is providing longer-term funding commitments to give sports more stability and certainty to plan ahead.

All of this work is important with the 2020 Tokyo Olympics and Paralympics drawing near, and the 2022 Beijing Winter Games and Paris 2024 beyond that.

Enhancing athlete pathways and athlete wellbeing are primary areas of focus for the AIS, and are keys to creating long-term sustainable success. We have embedded 20 Athlete Wellbeing Managers across National Sporting Organisations, and, working closely with the AIS Wellbeing and Engagement team, are delivering key programs and support from mental health programs, through to career guidance and connection to Australians at the community level.

The AIS is also leading collaborative sports research, applied technology and innovation initiatives including the Gold Medal Ready program, a unique partnership with the Australian Army to help athletes perform under pressure.

From backyards to benchmark international events, we believe unquestionably in the power of sport and physical activity to reflect the very best in our culture and to be a powerful vehicle for change.

Thank you for all you do for Australian sport and best wishes for the year ahead
