1. Junior Track Series

AusCycling is delighted to be returning another reason of our Junior Track Series ('Series') now into its twelfth season.

This Series has become one of the most important elements in our junior track development pathway. The concept may have come from humble beginnings but has proved its worth in Australian cycling with many future Champions developing their talents through participation in the Series.

We know that everyone plays a key role in ensuring the success of the Series from coaches to riders, volunteers and parents. For all your help and support we thank you.

3. Race Day Expectations

On race day, coaches and team managers will make efforts to place riders where they believe will be best for effective delivery the development of the rider and racing with the event. Unless advised otherwise, we ask parents or guardians to please support coaches by keeping a respectful distance from the team group and athletes. This will be from the time riders arrive for an event preparation until the time riders are dismissed at the end of day's competition.

AusCycling is not asking you to stop enjoying your children on race days. Instead, we ask you to give them some space so they can express themselves freely. Unless directly involved in a team or combine, its recommended parents take a seat in the stands and enjoy the experience. There is no spectator charge at any round of AJTS.

Experience demonstrates that a split between family and race day activities has many positive benefits for the athletes.
