## 8.4 SUPPLEMENTARY VENUE INFORMATION

### SPECTATOR SEATING

The required space for marquees and spectator seating is generally dependant on the anticipated number of entries. It is important that designated spectator areas are identified on the site plan and can accommodate the expected attendees during the BMX Racing State/Territory Series.

### CAR PARKING

Spectator and participant car parking and associated vehicle movements should be carefully considered in pre-event planning.

Parking needs for the event must be accommodated with appropriately located sites, directional signage and traffic controllers/event traffic marshals. Event parking should include parking areas for cars, motorcycles, bicycles and buses, as well as locations for any essential or emergency vehicles, participants, officials, spectators, media, accessible parking, traffic controllers/event traffic marshals and medical vehicles. Reserved parking spaces for VIP's and Officials must be provided.

If existing parking facilities at the event location are inadequate, consider parking availability nearby. If you need to set up additional parking facilities, traffic controllers/event traffic marshals may be required. Easily accessible parking spaces close to the event should be provided for people with disability.

## TOILETS

There must be enough toilets at the venue, including male, female, and accessible toilets. Cleaning/servicing for toilets should also be arranged for the duration of the event.

The below table outlines the recommended minimum number of toilets on site (i.e., including existing toilet blocks and Portaloo's) based on the expected attendees during the BMX Racing State/Territory Series:

Number of Attendees	Male	Female	Accessible
<500	2 toilets	6 toilets	1 toilet
501 - 1000	4 toilets	9 toilets	1 toilet
1001 - 2000	8 toilets	12 toilets	1 toilet
2001 - 3000	15 toilets	18 toilets	2 toilets

The Host Club must determine if additional toilets are required for the event, in accordance with the table above, and if so, the Host Club must source them.

## CATERING

Appropriate catering facilities (i.e. Host Club canteen and/or additional food vendors) should be available during the BMX Racing State/Territory Series, to provide a range of catering options for spectators and riders.

The Host Club may run their canteen for the BMX Racing State/Territory Series and will keep all revenue made, however they will be responsible for any expenses incurred in relation to the canteen.

The Host Club should determine if food vendors, in addition to the Host Club canteen, are required for the event, and if so source them.

## CLEANING AND WASTE

Cleaning/servicing for toilets should be arranged by the Host Club for the duration of the event. Cleaning of other high traffic areas throughout the Venue should also be arranged.

An adequate number of bins must be supplied and emptied daily.

## ACCESSIBILITY

Accessible facilities including accessible parking, spectator area and toilets should be available at the Venue.

## 8.5 BMX TRACK & VENUE PREPARATION

Track updates or minor alterations must be undertaken by the Host Club at the direction of, and approved by AusCycling to ensure the track meets current [UCI regulations](#).

Approved personnel will decide the appropriate viewing platform (face to face/video/photos etc). Please refer to [BMX Track Approval Requirements](#)

## VENUE AND TRACK MAINTENANCE

The Host Club must ensure that the BMX track is well maintained and is in excellent condition in the period leading up to their allocated round of the BMX Racing State/Territory Series.
